2014 Ordo Rome:

Roman Liturgy and Frankish Creativity Arthur Westwell, 2024-01-18 This incisive in depth study unearths the significance of a neglected group of early medieval manuscripts those which transmit the Ordines Romani These texts present detailed scripts for Christian ceremonies that narrate the gestures motions actions and settings of ritual performance with particular orientation to the Roman church While they are usually understood as liturgical and thus lacking any particular creative flair Arthur Westwell here foregrounds their manuscript permutations in order to reveal their extraordinary dynamism He reflects on how the Carolingian Church undertook to improve liturgical practice and understanding questioning the accepted idea of a reform aimed at uniformity led by the monarch Through these manuscripts Westwell reveals a diversity of motivations in the recording of Roman liturgy and demonstrates the remarkable sophistication of Carolingian manuscript compilers The Roman Imperial Court in the Principate and Late Antiquity Caillan Davenport, Meaghan McEvoy, 2023-09-23 The Roman Imperial Court in the Principate and Late Antiquity examines the Roman imperial court as a social and political institution in both the Principate and Late Antiquity By analysing these two periods which are usually treated separately in studies of the Roman court it considers continuities changes and connections in the six hundred years between the reigns of Augustus and Justinian Thirteen case studies are presented Some take a thematic approach analysing specific aspects such as the appointment of jurists the role of guard units or stories told about the court over several centuries Others concentrate on specific periods individuals or office holders like the role of women and generals in the fifth century AD while paying attention to their wider historical significance The volume concludes with a chapter placing the evolution of the Roman imperial court in comparative perspective using insights from scholarship on other Eurasian monarchical courts It shows that the long term transformation of the Roman imperial court did not follow a straightforward and linear course but came about as the result of negotiation experimentation and adaptation *Rome's Holy Mountain* Jason Moralee, 2018 Rome's Holy Mountain is the first book to chart the history of the Capitoline Hill in Late Antiquity from the third to the seventh centuries CE It investigates both the lived in and dreamed of realities of the hill in an era of fundamental political religious and social change The Oxford Handbook of Ordoliberalism Thomas Biebricher, Werner Bonefeld, Peter Nedergaard, 2022-09-05 Since the financial crisis of 2008 ordoliberalism emerged from relative obscurity to become one of the crucial terms of analysis across a wide range of academic literatures and public discussion In fact it became the main reference for a number of issues including assessments of the attempted resolution of the Eurozone crisis arguments about German hegemony in Europe debates over the future of economic liberalism and controversies about authoritarian liberalism What is striking about ordoliberalism is its pronounced ambiguity as some view it as a more refined and potentially progressive variant of neoliberalism while others cast it as a blueprint for a regime of austerity reigning over a society of competition with only rudimentary democratic institutions And while ordoliberalism is

often portrayed as a quintessentially German tradition its impact has not been confined to the German context extending all the way to the unlikely case of China In short ordoliberalism is a phenomenon of arguably considerable influence that remains poorly understood as it is mystified by its proponents and vilified by its critics The Oxford Handbook of Ordoliberalism contains a selection of chapters written by an international cast of experts on ordoliberalism that aim to elucidate and analyze the latter in all of its many facets From the intellectual origins and prime exemplars to its main theoretical themes and practical applications up to the most recent debates taking place across a range of disciplines this volume offers the first comprehensive account of ordoliberalism for the English speaking world **The Roman Mass** Uwe Michael Lang,2022-09-29 This volume offers a new synthetic overview of the structure and ritual shape of the Roman Mass from its formative period in late antiquity to its post Tridentine standardisation Starting with the Last Supper and the origins of the Eucharist Uwe Michael Lang constructs a narrative that explores the intense religious social and cultural transformations that shaped the Roman Mass Lang unites classical liturgical history with insights from a variety of other disciplines that have drawn attention to the ritual performance and reception of the mass He also presents liturgical developments within the broader historical and theological contexts that affected the celebration and experience of the sacramental rite that is still at the heart of Catholic Christianity Aimed at scholars from a broad swathe of subjects including religious studies history art history literature and music Lang's volume serves as a comprehensive history of the Roman Mass over the course of a millenium *Rome and Byzantium in the Visigothic Kingdom* Damián Fernández,Molly Lester,Jamie Wood,2025-10-01 This volume interrogates the assumption that Visigothic practices and institutions were mere imitations of the Byzantine empire Contributors rethink these practices not as uncritical and derivative adoptions of Byzantine customs but as dynamic processes in dialogue with not only the Byzantine empire but also with the contemporary Iberian context as well as the Roman past The goal of the volume is to approach Visigothic customs not as an uncritical adoption and imitation of contemporary Roman models an acculturation model but as unique interpretations of a common pool of symbols practices and institutions that formed the legacy of Rome The contributors argue that it is necessary to reconsider the idea of *imitatio imperii* as a process that involved specific actors taking strategic decisions in historically contingent circumstances Rome, Ravenna, and Venice, 750-1000 Veronica West-Harling,2020 A comparative and interdisciplinary study Rome Ravenna and Venice explores how three cities preserved and remoulded their common Byzantine past It sheds light on how far these societies were the heirs of the Empire and how they imagined a new part Roman part Italian identity in the centuries after their imperial links were severed **Running Rome and its Empire** Antonio Lopez Garcia,2023-12-01 This volume explores the transformation of public space and administrative activities in republican and imperial Rome through an interdisciplinary examination of the topography of power Throughout the Roman world building projects created spaces for different civic purposes such as hosting assemblies holding senate meetings the administration of justice housing the public

treasury and the management of the city through different magistracies offices and even archives These administrative spaces both open and closed characterised Roman life throughout the Republic and High Empire until the administrative and judicial transformations of the fourth century CE This volume explores urban development and the dynamics of administrative expansion linking them with some of the most recent archaeological discoveries In doing so it examines several facets of the transformation of Roman administration over this period considering new approaches to and theories on the uses of public space and incorporating new work in Roman studies that focuses on the spatial needs of human users rather than architectural style and design This fascinating collection of essays is of interest to students and scholars working on Roman space and urbanism Roman governance and the running of the Roman Empire more broadly

Rome and the Invention of the Papacy Rosamond McKitterick, 2020-06-25 The first full study of the most remarkable history of the early popes and their relationship with Rome the *Liber pontificalis*

Music in Medieval Rituals for the End of Life Elaine Stratton Hild, 2024 Medieval documents reveal that for centuries of European history singing for a person at the moment of death was considered to be the ideal accompaniment to a life's ending Through investigations of four manuscripts as case studies author Elaine Stratton Hild examines and recovers the music sung for the dying during the Middle Ages and considers the functions of the music a lost art of comforting the dying and the grieving
