2014 Geography November Memorandum:

Decolonising Geography? Disciplinary Histories and the End of the British Empire in Africa, 1948-1998 Ruth Craggs, Hannah Neate, 2023-10-02 **DECOLONISING GEOGRAPHY** This book presents an extraordinarily sensitive account of geography's histories in five African countries subjected to British colonial rule. Craggs and Neate draw together political and imaginative processes of decolonisation through an innovative biographical approach that humanizes and enlivens the story of our academic discipline. It will be an invaluable resource for those seeking a deeper understanding of decolonisation, its recent trajectories and far-reaching implications on the African continent. Shari Daya Affiliate Associate Professor in Environmental and Geographical Science, University of Cape Town. By placing the experiences, ideas and practices of African geographers in the center of their analyses, Craggs and Neate provide an unprecedented account of historical and contemporary decolonizing struggles within Geography and the academy. This book should be required reading for all those looking to decolonize the discipline and dislodge it from its Global North histories, institutions and ideologies. Mona Domosh, Professor of Geography, The Joan P and Edward J Foley Jr 1933 Professor, Dartmouth College. This meticulous work explores how colonialism, decolonization and postcolonialism shaped African geography and geographers. It sheds light on efforts to Africanize the discipline, a process which I was both witness to and a participant in. Stanley Okafor, Professor of Geography, Retired, University of Ibadan. How did a generation of academic geographers engage with constitutional decolonisation during the end of the British empire in Africa? In *Decolonising Geography: Disciplinary Histories and the End of the British Empire in Africa 1948-1998*, Ruth Craggs and Hannah Neate explore how the teaching, research, administration and activism of geographers in Africa shaped the discipline and the post-colonial geopolitics of the continent. The authors follow the professional lives of individual geographers to provide fresh insights into decolonisation in the former British Empire in Africa, drawing from extensive archival research and more than 40 oral history interviews with geographers in Ghana, Nigeria, South Africa, Tanzania and the UK. *Decolonising Geography* is a must-read for any reader in the UK and Africa with an interest in the relationships between geography and decolonisation.

Sand, Snow, and Stardust Gretchen Heefner, 2025-05-05 A vivid tour of US military efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country s status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America s planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might Sand Snow

and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely

Propaganda and Ideology in the Russian-Ukrainian War Jon Roozenbeek, 2024-05-31 Russia's invasion of Ukraine is one of the most important conflicts of the twenty first century With the start of military hostilities in 2014 also came an onslaught of propaganda to both convince and confuse audiences worldwide about the war's historical and ideological underpinnings Based on extensive research drawing on tens of thousands of news articles and hundreds of pages of legal documents and internal correspondence this book offers the first comprehensive analysis of the role of propaganda ideology and identity in the Russian Ukrainian war It argues that despite Russia's efforts to set up a media machine at home and abroad with eight years of propaganda legitimising Russia's presence in eastern Ukraine Russia never managed to vocalise a convincing alternative to Ukrainian nationhood Instead Russian propaganda backfired Ukraine is now more united than ever before

the war in eastern Ukraine's Donetsk Basin Donbas between April 2014 and mid 2020. It provides an introduction to the conflict and illustrates the key point of contention in the academic debate surrounding it: the question whether this war is primarily an internal Ukrainian phenomenon or the result of a covert Russian invasion. The contributions by recognized specialists from Ukraine, Russia, Germany, and Japan offer multifaceted views and insights into this long-lasting conflict for both expert readers and those who are new to the topic. The volume's contributors are Tymofii Brik, Jakob Häuter, Sanshiro Hosaka, Yuriy Matsiyevsky, Nikolay Mitrokhin, Maximilian Kranich, and Ulrich Schneckener. Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07. From bank bailouts to austerity, Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors, financiers, bankers, and the privileged are protected. The authors expose the class-based nature of Ireland's crisis resolution.
