2014 Gradegeography Scope:

Geographical Reasoning and Learning Sonia Maria Vanzella Castellar, Marcelo Garrido-Pereira, Nubia Moreno Lache, 2021-09-15 This book presents the distinctive theoretical and methodological approaches in geography education in South America and more specifically in Brazil Chile and Colombia It highlights cartography and maps as essential tools and provides a meaningful approach to learning in geographical education thereby giving children and young people the opportunity to better understand their situations contexts and social conditions The book describes how South American countries organize their scholar curriculum and the ways in which they deal with geography vocabulary and developing fundamental concepts methodologies epistemological comprehension on categories keywords and themes in geography It also describes its use in teachers practices and learning progressions the use of spatial representations as a potent mean to visualize and solve questions and harnesses spatial thinking and geographical reasoning development The book helps to improve teaching and learning practices in primary and secondary education and as such it provides an interesting read for researchers students and teachers of geography and social studies

Assessment in Geographical Education: An International Perspective Theresa Bourke, Reece Mills, Rod Lane, 2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills

 aktualisiert **Developing Core Literacy Proficiencies, Grade 6** Odell Education, 2016-07-21 The Developing Core
 Literacy Proficiencies program is an integrated set of English Language Arts Literacy units spanning grades 6 12 that
 provide student centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards CCSS
 Reading Closely for Textual Details Making Evidence Based Claims Making Evidence Based Claims about Literary Technique
 Grades 9 12 Researching to Deepen Understanding Building Evidence Based Arguments The program approaches literacy
 through the development of knowledge literacy skills and academic habits Throughout the activities students develop their

literacy along these three paths in an integrated engaging and empowering way Knowledge The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time but also contain the complexity of expression necessary for developing college and career ready literacy skills Literacy Skills The program articulates and targets instruction and assessment on twenty CCSS aligned literacy skills ranging from making inferences to reflecting critically Students focus on this set of twenty skills throughout the year and program continually applying them in new and more sophisticated ways Academic Habits The program articulates twelve academic habits for students to develop apply and extend as they progress through the sequence of instruction Instructional notes allow teachers to introduce and discuss academic habits such as preparing and completing tasks that are essential to students success in the classroom The program materials include a comprehensive set of instructional sequences teacher notes handouts assessments rubrics and graphic organizers designed to support students with a diversity of educational experiences and needs The integrated assessment system centered around the literacy skills and academic habits allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels

Mindful Social Studies Tori K. Flint, Natalie Keefer, 2022-08-16 Mindful Social Studies Frameworks for Social Emotional Learning and Critically Engaged Citizens situates the field of social studies education as uniquely poised to integrate anti racist equity and asset based pedagogies with contemplative mindfulness based strategies to promote the knowledge skills and dispositions students need to be effective citizens Students Social Emotional Learning SEL hinges upon their experience s engaging in authentic learning that strengthens cognitive skills including critical thinking self awareness reflection compassion empathy and perspective taking In this volume the co editors have curated reflective K 16 practitioner style research focused and theory based chapters that explore social justice orientated contemplative pedagogies as well as mindfulness related frameworks and strategies for teaching social studies and the social and behavioral sciences In this book chapter authors explore ways of cultivating specific mindfulness related social studies dispositions and transformative rationales and approaches for critical mindfulness and SEL based on compelling arguments for meeting the needs of students families and educators in a dynamic and increasingly diverse society *Brazilian Geography* Rubén C. Lois González, Marco Antonio Mitidiero Junior, 2022-11-28 This book presents the history and theoretical contributions of Brazilian geography since the late twentieth century and shows how this sphere of knowledge has been organically integrated with social and territorial issues and with social movements The relationship between the subjects and objects of research in Brazilian geography has been centred on the understanding and transformation of realities marked by injustice and inequality Against this backdrop the geography of the country has developed by integrating relating to and forming part of those realities as it headed out into the streets Brazilian geography continues to hold theoretical debate in high regard as a result of the influence of critical

theory This book thus covers the theoretical approaches in Brazilian geography its different lines of research and above all its character as manifested in culture and society **Education for Social Justice** Nicholas M. Michelli, Tina J.

Jacobowitz, Stacey Campo, Diana Jahnsen, 2023-12-19 Education for Social Justice is a statement of the role of education in promoting social justice Drawing on research this book explains what social justice is presents the argument that democracy requires a commitment to social justice and shows what action steps need to be taken to ensure social justice is achieved within education and society more broadly The text presents research and concrete examples to examine the social justice issues facing society today Some of the social justice topics explored include access to higher education informal education such as museums and art galleries and adequate civic education and racial and gender discrimination within education as well as access to healthcare and the vote which impact students learning It explores specific research and action for each of these elements and at the end of the book provides potential paths forward to improve social justice outcomes This timely book encourages readers to consider what we can do to enhance social justice in education and society It is important reading for pre service teachers particularly those studying teaching for social justice social studies education and educational policy and politics as well as for in service teachers who want to make a difference The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *Fighting Global Neo-Extractivism* Jasper Finkeldey, 2022-08-02

Fighting Global Neo Extractivism Fossil Free Social Movements in South Africa analyzes social struggles over damaging new fossil fuel projects in the Global South with a focus on South Africa Africa's biggest fossil fuel emitter Fossil fuel extraction in South Africa has reached a new accelerated phase in which the fossil fuel frontier is moving beyond historical sacrifice zones into non traditional spaces such as conservation parks and middle class neighbourhoods and provoking fervent opposition from grassroots activists This book examines campaigns such as Frack Free South Africa and Save our iMfolozi Wilderness viewing them as struggles against neo extractivism driven by the state and industry Through a series of detailed case studies it highlights the shaping of mobilisation patterns by prior land use practices and the capacity to mobilize different social groups across race and class Developing the notion of the fossil fuel frontier as the material and political boundary that activists in South Africa and elsewhere in the world render visible this volume provides a theoretical framework to understanding global mobilization patterns This timely and impassioned book will appeal to students and researchers interested in a range of subjects including environmentalism social movements political ecology and development studies

Dislocating the Orient Daniel Foliard, 2017-04-13 While the twentieth century's conflicting visions and exploitation of the Middle East are well documented the origins of the concept of the Middle East itself have been largely ignored With *Dislocating the Orient* Daniel Foliard tells the story of how the land was brought into being exploring how maps knowledge and blind ignorance all participated in the construction of this imagined region Foliard vividly illustrates how the British first

defined the Middle East as a geopolitical and cartographic region in the nineteenth and early twentieth centuries through their imperial maps. Until then the region had never been clearly distinguished from the East or the Orient. In the course of their colonial activities, however, the British began to conceive of the Middle East as a separate and distinct part of the world, with consequences that continue to be felt today. As they reimagined boundaries, the British produced disputed and finally dramatically transformed the geography of the area, both culturally and physically, over the course of their colonial era. Using a wide variety of primary texts and historical maps to show how the idea of the Middle East came into being, *Dislocating the Orient* will interest historians of the Middle East, the British empire, cultural geography, and cartography.
