CLARIN in the Low Countries Jan Odijk, Arjan van Hessen, 2017-12-28 This book describes the results of activities undertaken to construct the CLARIN research infrastructure in the Low Countries i.e. in the Netherlands and in Flanders the Dutch speaking part of Belgium CLARIN is a European research infrastructure for humanities and social science researchers that work with natural language data This book introduces the CLARIN infrastructure describes various aspects of the technical implementation of the infrastructure and introduces data applications and software services created in the Low Countries for a wide variety of humanities disciplines These enable researchers to accelerate their research activities and to base their conclusions on a much larger and richer empirical base than was possible before thus providing a basis for carrying out groundbreaking research in which old questions can be investigated in new ways and new questions can be raised and investigated for the first time Given CLARIN's focus on language data linguistics and particularly syntax are prominently present However other humanities disciplines that work with natural language data such as history literary studies religion studies media studies political studies and philosophy are represented as well The book is a must read for humanities scholars and students who want to understand and use the potential that the Digital Humanities offer as well as for computer scientists and developers of research infrastructures in particular for researchers working on the CLARIN infrastructure in other countries *Social and Regional Variation in World Englishes* Paula Rautioaho, Hanna

Parviainen, Mark Kaunisto, Arja Nurmi, 2022-09-30 This collection charts the evolution of grammatical variation in Englishes from Late Middle English to the present using corpus linguistic tools to address divergence and convergence in local and global perspectives The book considers both diachronic and synchronic perspectives in grammatical variation across varieties of English across the UK North America Europe Africa and Asia The volume reflects on the questions of whether patterns of variation diverge or converge and to what extent catalysts for change are shared in time and space Chapters look at different factors in grammatical variation at both the macro and micro level investigating specific linguistic and grammatical features but also at wider phenomena in contact linguistics social patterns social networks and media based corpora Chapters progress from the local to the global all with an eye towards using the latest methodological approaches from corpus linguistics to shed light on the affordances of data informed methods to study grammatical change and the possibilities for future research This book will be of interest to students and scholars in sociolinguistics corpus linguistics and World Englishes Inclusive Educational Administration Mary Konya Weishaar, Phillip M. Weishaar, John C.

Borsa, 2014-01-30 The belief that regular and special education administrators should work together to create and maintain successful education programs for all students is not new nor is the assumption that administrator preparation programs should foster the development of an inclusive approach yet this critical educational partnership has not reached its full potential Despite the lack of agreement within the federal legislative branch on exactly what should be changed within our

education system some promising points of consensus have emerged competitive grants college and career readiness multi tiered systems of support common core standards a rewards based rather than punitive system for school improvement the critical role of effective teachers and principals increased school choice options and evidence based learning strategies particularly in high need schools The third edition stresses the importance of these key points Each chapter features case studies that simulate real life situations readers are likely to encounter in their careers as administrators Within the safety of the classroom they will rehearse controversial scenarios involving inclusive school governance school reform identification and placement conflict resolution program evaluation fiscal issues transportation and discipline Enhanced practice situations and role play exercises emphasize the special education administrator s role in resolving difficult situations The case study approach is an effective learning tool for aspiring special and regular education administrators and instructors alike fostering enthusiastic classroom discussion and critical thinking about potential solutions to today s complex problems in inclusive educational administration

Resolution Of The Twentieth Century Conundrum In Elastic Stability Isaac E Elishakoff, 2014-05-29 There have been stability theories developed for beams plates and shells the most significant elements in mechanical aerospace ocean and marine engineering For beams and plates the theoretical and experimental values of buckling loads are in close vicinity However for thin shells the experimental predictions do not conform with the theory due to presence of small geometric imperfections that are deviations from the ideal shape This fact has been referred to in the literature as embarrassing paradoxical and perplexing Indeed the popular adage In theory there is no difference between theory and practice In practice there is very much applies to thin shells whose experimental buckling loads may constitute a small fraction of the theoretical prediction based on classical linear theory because in practice engineers use knockdown

factors that are not theoretically substantiated This book presents a uniform approach that tames this prima donna like and capricious behavior of structures that has been dubbed the imperfection sensitivity thus resolving the conundrum that has occupied the best minds of elastic stability throughout the twentieth century
