Cragun, Christel Manning, Lori L. Fazzino, 2017-11-07 There has been a dramatic increase in the percentage of the US population that is not religious However there is to date very little research on the social movement that is organizing to serve the needs of and advocate for the nonreligious in the US This is a book about the rise and structure of organized secularism in the United States By organized secularism we mean the efforts of nonreligious individuals to build institutions networks and ultimately a movement that serves their interests in a predominantly religious society Researchers from various fields address questions such as What secularist organizations exist Who are the members of these organizations What kinds of organizations do they create What functions do these organizations provide for their members How do the secularist organizations of today compare to those of the past And what is their likely impact on the future of secularism For anyone trying to understand the rise of the nonreligious in the US this book will provide valuable insights into organized efforts to normalize their worldview and advocate for their equal treatment in society **Mergers, Acquisitions, and Other Restructuring Activities** Donald DePamphilis, 2019-08-13 Mergers Acquisitions and Other Restructuring Activities An Integrated Approach to Process Tools Cases and Solutions Tenth Edition is the most comprehensive and cutting edge text available on the subject Supported by recent peer reviewed academic research this book provides many recent notable deals precedent setting judicial decisions government policies and regulations and trends affecting M As as well as takeover strategies and tactics Today s policies politics and economics are reflected in the book s 40 case studies 90% of which involve deals either announced or completed during the last several years These cases represent friendly hostile highly leveraged and cross border transactions in ten different industries involving public and private firms and those experiencing financial distress Sections discuss an overview of M As key regulations common strategies and tactics how managers may choose a business strategy from available options valuation methods and basic financial modeling techniques the negotiating process how deal structuring and financing are inextricably linked how consensus is reached during the bargaining process the role of financial models in closing the deal and strategic growth options as alternatives to domestic M As Multi-omic Data Integration Paolo Tieri, Christine Nardini, Jennifer Elizabeth Dent, 2015-09-17 Stable predictive biomarkers and interpretable disease signatures are seen as a significant step towards personalized medicine In this perspective integration of multi omic data coming from genomics transcriptomics glycomics proteomics metabolomics is a powerful strategy to reconstruct and analyse complex multi dimensional interactions enabling deeper mechanistic and medical insight At the same time there is a rising concern that much of such different omic data although often publicly and

freely available lie in databases and repositories underutilised or not used at all Issues coming from lack of standardisation and shared biological identities are also well known From these considerations a novel pressing request arises from the life sciences to design methodologies and approaches that allow for these data to be interpreted as a whole i e as intertwined molecular signatures containing genes proteins mRNAs and miRNAs able to capture inter layers connections and complexity Papers discuss data integration approaches and methods of several types and extents their application in understanding the pathogenesis of specific diseases or in identifying candidate biomarkers to exploit the full benefit of multi omic datasets and their intrinsic information content Topics of interest include but are not limited to Methods for the integration of layered data including but not limited to genomics transcriptomics glycomics proteomics metabolomics Application of multi omic data integration approaches for diagnostic biomarker discovery in any field of the life sciences Innovative approaches for the analysis and the visualization of multi omic datasets Methods and applications for systematic measurements from single undivided samples comprising genomic transcriptomic proteomic metabolomic measurements among others Multi scale approaches for integrated dynamic modelling and simulation Implementation of applications computational resources and repositories devoted to data integration including but not limited to data warehousing database federation semantic integration service oriented and or wiki integration Issues related to the definition and implementation of standards shared identities and semantics with particular focus on the integration problem Research papers reviews and short communications on all topics related to the above issues were welcomed The Oxford Handbook of the Science of Science Communication Kathleen Hall Jamieson, Dan M.
