the professional organization for all registered nurses? Answer- The American Nurses Association (ANA)

Registered Nurses (RN) Answer- individuals who are educationally prepared and licensed by a state, commonwealth, territory, government, or regulatory body to practice as a registered nurse. "Nurse" and "professional nurse" are synonyms for a registered nurse in this document.

Advanced practice registered nurses (APRNs) Answer- Who have completed an accredited graduate-level education program preparing the nurse for one of the four recognized APRN roles [certified registered nurse anesthetist (CRNA), certified nurse midwife (CNM), clinical nurse specialist (CNS), or certified nurse practitioner (CNP)]; • Who have passed a national certification examination that measures APRN-, role-, and population-focused competencies and maintain continued competence as evidenced by recertification in the role and population through the national certification program; • Who have acquired advanced clinical knowledge and skills preparing the nurse to provide direct care to patients, as well as a component of indirect care; however, the defining factor for all APRNs is that a significant component of the education and practice focuses on direct care of individuals; • Whose practices build on the competencies of registered nurses (RNs) by demonstrating a greater depth and breadth of knowledge, a greater synthesis of data, increased complexity of skills and interventions, and greater role autonomy; • Who are educationally prepared to assume responsibility and accountability for health promotion and/or maintenance as well as the assessment, diagnosis, and management of patient problems, which includes the use and prescription of pharmacologic and non-pharmacologic interventions; • Who have clinical experience of sufficient depth and breadth to reflect the intended license; and • Who have obtained a license to practice as an APRN in one of the four APRN roles: certified registered nurse anesthetist (CRNA), certified nurse midwife (CNM), clinical nurse specialist (CNS), or certified nurse practitioner (CNP) (APRN Joint Dialogue Group, 2008).
