

THE FIRST BOOK OF GENESIS

ANSWERS IN GENESIS

1 In the beginning God
and the earth.

2 And the earth was
void: and darkness was
deep. And the Spirit of God
face of the deep.

3 And God said, Let
there be light.

And God saw the light, and it was good: and God divided the light from the darkness. And God called the light Day, and the darkness Night.

4 And God said, Let
heaven be gathered
and let the dry land
be seen.

5 And God called the gathering of
the waters Seas: and the
dry land was called Earth.

6 And God said, Let
the grass, the herb, the
tree yield seed: and let
the tree be called by
its seed.

7 And God said, Let
the tree be called by
its seed: and let the
earth be called by
its seed.

On Magic & Miracles Marian A. Jacobs, 2025-07-01 From classic fantasy like The Lord of the Rings and The Chronicles of Narnia to modern stories like Harry Potter Christians have been debating the issue of fictional magic for decades Some believers read and write fantasy as an expression of their God given creativity while others feel this is dangerous and ignorant of the growing threat of the occult Deuteronomy 18 says spells and other forms of magic are an abomination but how does that apply to fantasy magic Is there a difference between the Deep Magic of Aslan at the Stone Table and the spells in Harry Potter Is it possible for fictional magic to lead someone into the occult Adults and children alike have wrestled with these questions as the fantasy genre exploded into one of the most popular book and film genres on the market In this guidebook Marian A Jacobs explores the theology of magic gleaned contextual clues surrounding supernatural events in the Bible These scriptural principles can assist readers movie lovers gamers and parents in discerning how fantasy can both edify and honor God On Magic and Miracles aims to answer the following questions What is the difference between magic and miracles in the Bible Is magic real And if so does it pose a genuine threat Could books like Harry Potter lead someone into the occult What is the importance of fantasy for Christians How can I discern fantasy books films and games for myself and my children

American Creationism, Creation Science, and Intelligent Design in the Evangelical Market

Benjamin L. Huskinson, 2020-08-19 In this compelling and thoroughly researched book Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism so too there is broad diversity among creationists His work on the Intelligent Design movement is superb and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism This is a very fine book Randall Balmer Author of Evangelicalism in America and writer host of In the Beginning The Creationist Controversy Benjamin Huskinson s study of American

creationism will be an eye opener for those who sit on the opposite side of the evolution debate He shows that far from being a unified assault on Darwinism the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community Peter Bowler Author of Monkey Trials and Gorilla Sermons Evolution and Christianity from Darwin to Intelligent Design A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory Huskinson offers a smart analysis of religious anti evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate A must read for science communicators Philippa Levine Walter Prescott Webb Chair in History and Ideas University of Texas at Austin USA This book explores the cultural history of anti evolution efforts in the United States from 1960 to the present refuting several popular narratives about creation science in evangelical America Separating theological terms like creationism from cultural movements such as creation science and intelligent design in an evangelical marketplace of ideas it contests assumptions that evangelical movements against evolution are homogeneous and it argues that intelligent design is not an off shoot of the creation science movement It demonstrates that the rationale of creationist groups is relational as well as ideological showing that the social function of American creationism which is to establish the boundaries of orthodox religion is key to understanding the competing strategies of creation science organisations
