Blogs Mario Camilleri, 2007-01-01 Weblogs or blogs are possibly the most visible of the Web 2.0 technologies described by some as push button publishing for the people. This publication is one of the outcomes of an ECML project which over the course of three years investigated the design of an educational blogging platform and its use in the language classroom. It is intended for the language teacher who wishes to harness the potential of the writable Web in his or her language class, the teacher trainer who promotes a social constructivist paradigm and the educational software designer who seeks to create flexible educational tools which incorporate subversion. The accompanying CD Rom contains the entire corpus of blogs, warts and all, produced by project participants over 4 000 posts and 9 000 comments as well as the educational blogging platform prototype developed for this project which is an open source release under the GNU General Public License. **Tourism and Intercultural Communication and Innovations** Stoyan Marinov, Genka Rafailova, 2019-04-25 This volume presents the results of Bulgarian and international tourism research and brings together selected papers from the international conference Tourism and Innovations held in Varna, Bulgaria in 2018. It contains theoretical and empirical approaches towards various aspects of tourism concerning both innovations in tourism development and in foreign languages education. As a whole, the book presents innovative solutions and processes in tourism including management and staff training provoked by today's opportunities and challenges for future tourism development. The first part is dedicated to issues in tourism innovation ranging from those provoked from the changing global environment and tourism demand through to social innovations concerning tourism products and human resources management. The second section of the book deals with traditions and innovations in foreign language education oriented to managers, operational staff and decision makers in tourism. **About Language** Scott Thornbury, 1997-03-13 This book raises the issue of what a teacher needs to know about English in order to teach it effectively. Cultural Mediation in Language Learning and Teaching Geneviève Zarate, Council of Europe, European Centre for Modern Languages, 2004-01-01 This project attempts to tackle several challenges to experience the variety of different teaching cultures as a source of innovation rather than as an obstacle to adopt a pluridisciplinary approach by introducing references taken from the social sciences in order to develop reflection on the role of languages in social cohesion, to try and provide answers to a question hitherto rarely raised in the didactics of languages and cultures, namely the place of cultural mediation itself.
