storehouse of ideas for stories Is the journalist most effective on the sidelines of society or in getting involved in the action or taking to the field as a referee or field judge If journalists are so devoted to the ideals of objectivity detachment truth and providing an accurate view of the world why do so many of them leave journalism and move into public relations media consulting and advertising These are just some of the issues explored in *The Mind of a Journalist How Reporters See Themselves Their Stories and the World* For students and would be journalists this book analyzes the rational processes journalists use in defining themselves their world and their relation to that world Written by veteran journalist and noted professor Jim Willis with many observations from working and recently retired journalists from both print and broadcast the goal of the book is to put this discussion of journalist thinking into the classroom alongside discussion of reporting and writing techniques Ultimately the book provides added insights to how journalists think and why they do what they do Features Benefits Included throughout the book are many observations interviews from working journalists at such media outlets as The Los Angeles Times The Boston Globe CNN The Memphis Commercial Appeal WRTV Television in Indianapolis and The Daily Oklahoman A running single story example President s Bush s decision to invade Iraq in 2003 shows how the same story was treated by several different journalist mindsets and thereby examining how these different mindsets defined the issues of truth ethics and legality for this story
