A Rocksolid Chess Opening Repertoire For Black English Edition:

Rock Solid Chess Sergei Tiviakov, Yulia Gökbulut, 2024-01-06 Sergei Tiviakov was unbeaten for a consecutive 110 professional chess games as a grandmaster a record that has only been broken by World Champion Magnus Carlsen Who better to teach you rock solid chess strategy than Tiviakov He was born in Russia and trained in the famous Russian chess school In his first book he explains everything he knows about the fundament of chess strategy pawn structures If chess players trust that their knowledge of opening theory and tactics is enough to survive in tournament play they are mistaken Once you settle down for your game and the first moves have been played you will need a deeper understanding of the middlegame And one of the most challenging questions is how to navigate different pawn structures Sergei Tiviakov gives you all the answers in this first volume of his highly instructive series on chess strategy Tivi is famous for his deep chess knowledge and rock solid positional play He has gathered a rich collection of strategic lessons he has been teaching worldwide drawing mainly from his personal experience The examples and exercises will improve your chess significantly and are suitable for any reader from club player to grandmaster level *My First Chess Opening Repertoire* Christof Sielecki, 2024-10-10 In *My First Chess Opening Repertoire* you will learn how to play the opening This book gives you a compact and easy to learn repertoire for White starting with the move 1 e4 And it gives you a similar repertoire for Black with answers to all of White's approaches For beginners and improvers for anyone with a rating up to 1200 or even higher there is probably no better guide than Christof Sielecki who has already published four opening books and more than a dozen courses on the Chessable platform He knows exactly what his students need and has indeed received thousands of five star ratings The author strikes the perfect balance between fun easy to understand and theoretically sound opening choices And he keeps it entertaining with attacking and counterattacking lines First you'll learn the general opening principles that will guide you in any situation even if your opponent doesn't play the exact moves in the book Then you'll learn specific variations that will improve both your opening play and your general understanding of chess With White you will start with 1 e4 and build your repertoire around timeless opening principles with logical moves that almost play themselves With Black for example you will study the Sicilian Defence an opening that guarantees you the most interesting games and the most attacking opportunities This repertoire will allow you to hit the ground running **A Rock-solid Chess Opening Repertoire for Black** Viacheslav Eingorn, 2012 Playing as Black in a game of chess can be difficult Do you simply try to neutralize White's initiative or go all out to complicate the game Either way there are many pitfalls and a lot of study may be needed In this book Grandmaster Eingorn shows that it is possible both to play solidly and to take White out of his comfort zone He recommends ideas and move orders that are a little off the beaten track but which he has very carefully worked out over many years of his own practice The repertoire based on playing 1 e6 is strikingly creative and will appeal to those who want a stress free life as Black You will get every chance to demonstrate your chess skills and are very unlikely to be blown

off the board by a sharp prepared line All you need is a flexible approach and a willingness to try out new structures and ideas Eingorn s subtle move orders are particularly effective if White refuses to pick up the gauntlet as Black can then use his delay in playing Nf6 to good effect and take the fight directly to his opponent

King's Anti-Sicilians for Black Daniel King,2024-11-11 This opening manual completes the Black repertoire against the Sicilian that uses the Kalashnikov as the main line When possible Black will opt for the adventurous moves 1 e4 c5 2 Nf3 Nc6 3 d4 cxd4 4 Nxd4 e5 covered in the book King s Kalashnikov But everyone playing 1 c5 has to be ready when White chooses to avoid the Open Sicilian In this volume King gives you the answer to all of the so called Anti Sicilians including the Rossolimo the Alapin and the Grand Prix Attack All other less frequently played variations such as the Morra and the Wing Gambit are covered as well Grandmaster Daniel King has extensive experience playing the Sicilian having done so for over forty years His clear explanations and practical approach will help you achieve your own successes with the Sicilian Additionally there is a selection of annotated model games by grandmasters such as Magnus Carlsen Anish Giri and Daniel King which demonstrate how the recommendations are applied in real games The two volumes provide a compact and versatile repertoire for Black focusing on the most important lines and always aiming for dynamic middlegame play

Chess Life ,1994

Side-stepping Mainline Theory Gerard Welling,Steve Giddins,2019-09-05 The average chess player spends too much time on studying opening theory In his day World Champion Emanuel Lasker argued that improving amateurs should spend about 5% of their study time on openings These days club players are probably closer to 80% often focusing on opening lines that are popular among grandmasters Club players shouldn t slavishly copy the choices of grandmasters GMs need to squeeze every drop of advantage from the opening and therefore play highly complex lines that require large amounts of memorization The main necessity for club players is to emerge from the opening with a reasonable position from which you can simply play chess and pit your own tactical and positional understanding against that of your opponent Gerard Welling and Steve Giddins recommend the Old Indian Hanham Philidor set up as a basis for both Black and White They provide ideas and strategies that can be learned in the shortest possible time and require the bare minimum of maintenance and updating They deliver exactly what you need rock solid positions that you know how to handle By adopting a similar set up for both colours with similar plans and techniques you further reduce study time With this compact and straightforward opening approach Welling and Giddins argue club players will have more time to focus on what

is really decisive in the vast majority of non grandmaster games tactics positional understanding and endgame technique

An Opening Repertoire for Black Dražen Marović, Bruno Parma, 1987-01-01 **Kaufman's New Repertoire for Black and White** Larry Kaufmann, 2019-10-29 Seven years after his acclaimed and bestselling *The Kaufman Repertoire for Black and White* Grandmaster Larry Kaufman is back with his new repertoire book covering the entire scope of chess openings in one volume Two important developments made this new book necessary Larry Kaufman who routinely himself plays the lines he advocates to others discovered that after 1 d4 the recommendation in his previous book it became nearly impossible to show a consistent advantage for White especially against the Gruenfeld and the Nimzo Ragozin defenses The other factor was that chess engines have become so much stronger in recent years Komodo the top chess engine that computer expert Kaufman helped develop is now able to apply the celebrated Monte Carlo Tree Search algorithm With Komodo MCTS it is now possible to abandon lines that may be theoretically best against other computers and instead choose lines that are likely to succeed in actual practice against strong human opponents Larry Kaufman presents a completely new White repertoire with 1 e4 aiming for an objective advantage in the simplest practical manner You are presented with two options while you don't have to play the sharpest lines The Black repertoire has been thoroughly revised and updated with some crucial chapters replaced Kaufman's *New Repertoire for Black and White* is the first opening book that is primarily based on Monte Carlo search The highly original analysis has resulted in many improvements on existing theory This is a ready to go and easy to digest repertoire with sound practical lines that do not outdate rapidly and are suitable for masters while accessible for amateurs [Opening Repertoire... C6 - Playing the Caro-Kann and Slav As](#) Cyrus Lakdawala, Keaton Kiewra, 2017-02-15 This book provides a rock solid opening repertoire for Black using systems based on the move c6 The backbone of this repertoire is the Caro Kann versus 1 e4 and the Semi Slav via a Slav move order versus 1 d4 In general these systems aim to neutralise White's early initiative They aim for success by the gradual accumulation of small advantages rather than by emerging victorious from an early tactical melee which is rather problematic with the black pieces at the best of times The book is co authored by Cyrus Lakdawala and Keaton Kiewra and takes a teacher student format The student Keaton Kiewra is a very strong international master with two grandmaster norms He normally specialises in razor sharp defences such as the Sicilian Dragon and King's Indian Now he wants to broaden his style and develop his skills at handling more sedate positions His teacher is Cyrus Lakdawala an extremely experienced player coach and author who guides Keaton along the learning path
