A Rose For Emily Puzz:

The Chronology in William Faulkner's "A Rose for Emily" Davina Ruthmann, 2007-05-22 Seminar paper from the year 2005 in the subject American Studies Literature grade 1.0 University of Wuppertal course Grundlagenseminar Amerikanische Literatur language English abstract At the heart of the modernist aesthetic lay the conviction that the previously sustaining structures of human life whether social political religious or artistic had been either destroyed or shown up as falsehoods or fantasies Norton 1814 Thus literary features such as sequence or unity turned out to be only expressions of a desire for coherence This false order had to be renovated to express the new interpretation of the world as a broken image As a consequence modernist literature abandons former traditional ideals Instead of the tyranny of chronology it is the construction out of fragments that now becomes a key formal characteristic Without showing any linear sequence of events Faulkner's narrative technique in A Rose for Emily mirrors exactly this modernistic ideal By avoiding the chronological order of events Faulkner gives the reader a puzzle consisting of fragments Nevertheless he gives hints that make it possible to put these fragments together and thus reconstruct the chronology of the life of Miss Emily Grierson In order to find out what dates are carved on her tombstone Moore 196 the reader has to become active which is a common attribute in modernist texts A chronology of A Rose for Emily as stated by McGlynn is useful for at least two reasons it makes the plot more easily comprehensible and it helps clarify the function of time in the story **A Rose for Emily** William Faulkner, 2000

The Nature of Literary Response Clark McPhail, Norman Holland, 2017-07-12 In a rare fusion of literary sensibility with psychological research Norman N Holland brings to light important data showing how personality in the fullest sense of character development and identity affects the way in which we read and interpret literature This book will show that readers respond to literature in terms of their own lifestyle character personality or identity By such terms psychoanalytic writers mean an individual's characteristic way of dealing with the demands of outer and inner reality Each new experience develops the style while the pre-existing style shapes each new experience The sub title of this book Five Readers Reading reflects the fact that the author a distinguished literary critic worked with five student readers using a battery of psychological tests and extensive interviews to study the ways they reacted to classic short stories by Faulkner Hemingway and others Combining his own interpretation of the stories with his understanding of the readers and their reactions Holland derives four principles that inform literary response He then goes on to show how these principles apply not just to literary response but to the way personality shapes any experience The book carries Holland's previous studies of creation and responsive recreation forward to a major theoretical statement He rejects the artificial idea that one must think of a text or other event as separate from its perceivers illustrating the dynamics by which perceiver and perceived mutually create an experience For critics and students of the psychology of human behavior this is challenging and seminal reading
