A Southern Nigerian Community Case Study Ughelli:

A Southern Nigerian Community Frederic Will, 2013-08-19 The present book is a social and cultural study of a mid sized Nigerian city The author strives to indicate the structure of the everyday in a community where hustle and insecurity hasten a world only occasionally recognizable to its founding fathers **A Fred Will Reader** Frederic Will, 2019-10-18 A Fred Will Reader samples the writings of Frederic Will compiling excerpts of his poetry travel work agricultural sociology short stories and novels speculative philosophy and cultural history Naming the world Will says is at least half of world the half that gives in to us The other half the world that reading invents is supplied by the reader By reading each other globally Will argues that we should learn to share ways of reconstructing the often broken totality of the human condition

Overcoming the Corruption Conundrum in Africa Anzanilufuno Muniyai, 2020-01-15 This book adopts a holistic approach to identifying what could be done to surmount the corruption conundrum in the African continent It acknowledges the objective reality of corruption in Africa and identifies primary solutions to the issue The volume takes a socio legal approach in order to reveal the nature and extent of corruption and suggests that solutions can be found simply by interrogating how society reacts to it In conjunction with this the book identifies and critiques constraints in the formation of a definitive definition of corruption As shown here although it is critical for African states to develop anti corruption strategies the solution to the problem requires an understanding of the significance of political will and how the lack thereof has led to the endurance of corruption in Africa **Historia** Frederic Will, 2015-09-10 Historia is a series of interlocked observations on the nature of temporality the human practice of writing its history and the histories all things accumulate around themselves as does the author even while discoursing on historia A number of examples of history writing are provided which support the arguments of the text five books of history about America and the Americas and some examples from archeological reconstruction from historical drumming in West Africa and from the history of a painting by Albrecht Durer The book does not reach a conclusion does not define historia but views the term from many angles and will refresh the reader's sense of what the historical is And what is it It is the dimension in which the present takes on cargo and weight While it is true that the past is instantly devoured by the present it is also true that the past pervades the present while being devoured by it Of course when I switch on the light Edison switches it for me And it is not just TE It is industry commerce and the electrician around the corner I can do nothing effectual without the past but the past has no meaning except through me Historia rings many changes on this obvious but endlessly instructive idea *The Modernist Impulse and a Contemporary Opus* Frederic Will, 2017-01-06 This volume represents a study in the formation of a personal literary opus and in some of the theoretical reflections involved in understanding how parts of that opus are constructed The opus in question is the author's own and he is the analyst of it attempting in this role to work as an everyman stand in a representative of the I in each of us which can choose to live the situation of replacing itself by writing The opus is addressed by pieces of individual

text a chapter each from a couple of novels and a long poem and by a close pursuit of the kinds of ways in which the author is transformed into those pieces of text This textbook in democratic self transformation is at the same time a fussy tractatus on the intricacies imposed on itself by art in its quest to become a zone of moral enhancement Web-Based Services:
