## **A Theory Of Incentives In Procurement And Regulation:**

A Theory of Incentives in Procurement and Regulation Jean-Jacques Laffont, Jean Tirole, 1993 Based on their work in the application of principal agent theory to questions of regulation Laffont and Tirole develop a synthetic approach to this field focusing on the regulation of natural monopolies such as military contractors utility companies and transportation authorities

**Handbook of Industrial Organization** Mark Armstrong, Robert H. Porter, 2007-10-05 This is Volume 3 of the Handbook of Industrial Organization series HIO Volumes 1 2 published simultaneously in 1989 and many of the chapters were widely cited and appeared on graduate reading lists Since the first volumes published the field of industrial organization has continued to evolve and this volume fills the gaps While the first two volumes of HIO contain much more discussion of the theoretical literature than of the empirical literature it was representative of the field at that time Since then the empirical literature has flourished while the theoretical literature has continued to grow and this new volume reflects that change of emphasis This volume is an excellent reference and teaching supplement for industrial organization or industrial economics the microeconomics field that focuses on business behavior and its implications for both market structures and processes and for related public policies Part of the renowned Handbooks in Economics series Chapters are contributed by some of the leading experts in their fields A source reference and teaching supplement for industrial organizations or industrial economists

Mandatory Financial Disclosures and the Banking Sector Kumar Dasgupta, 2023-07-27 This book explores mandatory disclosures The book raises questions regarding the efficacy of market discipline and reaches a conclusion that seems to be borne out by the recent failure of Silicon Valley Bank and Credit Suisse The book starts by asking the question why do we need mandatory disclosures First it develops a framework using a Principal Agent model that provides an economic rationale for such disclosures Second it analyses the requirements outlined in Basel banking regulations over three decades and finds support for the propositions outlined in the developed framework in all key BCBS pronouncements Last the book empirically evaluates Pillar 3 disclosures and arrives at the surprising result that such disclosures do not seem have an impact on bond investors The book concludes by outlining the policy implications regarding the design efficacy implementation and limitations of regulation in an economy
