A Student's Guide to Hybrid Cars:

A Student Guide to Energy John F. Mongillo, 2011-05-04 This multivolume resource is an excellent research tool for developing a working knowledge of basic energy concepts and topics. With energy issues so much in the news, it is important that students get a clear understanding of how energy is produced and how it affects virtually every aspect of our lives. The multivolume set *A Student Guide to Energy* does just that with an accessible introduction to the basic concepts and key topics concerning nonrenewable energy sources, future renewable energy programs, and the importance of achieving a sustainable energy program for future generations. *A Student Guide to Energy* is divided into five separate volumes. Volume 1 highlights our present dependence on nonrenewable energy sources: oil, gas, coal, and nuclear power. Volumes 2, 3, and 4 look at the renewable energy sources that will play a vital role in our future, including solar energy, hydrogen fuel cells, wind, and water power, and geothermal energy. The concluding volume focuses on efforts to develop a global sustainable energy system that encompasses energy efficiency, conservation, and a healthy, cleaner environment.

The International Student's Guide to Writing a Research Paper Janine Carlock, Maeve Eberhardt, Jaime Horst, Peter Kolenich, 2017-06-13 The *International Student's Guide to Writing a Research Paper* is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time. This book is partly an update of *Writing a Research Paper* by Lionel Menasche (1998) and partly a companion to *The ESL Writer's Handbook*. Each section of the book includes a discrete task called a Building Block, which requires students to apply the skills learned toward the development of their own paper. This step-by-step approach allows students to construct knowledge as they become more familiar with the process, making writing a research paper a less intimidating task. Special features include: This guide uses simple, direct language for those for whom writing a research paper is new. Most example writing is from international students in an ESL program or first-year writing class, including two sample papers, one in APA and one in MLA. A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft. A subsection dedicated to constructing clear and cohesive paragraphs and sentences. The guide includes citation and style examples in MLA 8th edition.

Electric and Hybrid Cars Curtis D. Anderson, Judy Anderson, 2010-03-30 This illustrated history chronicles electric and hybrid cars from the late 19th century to today's fuel cell and plug-in automobiles. It describes the politics, technology, marketing strategies, and environmental issues that have impacted electric and hybrid cars research and development. The important marketing shift from a woman's car to going green is discussed. Milestone projects and technologies such as early batteries, hydrogen, and bio-mass fuel cells, the upsurge of hybrid vehicles, and the various regulations and market forces that have shaped the industry are also covered.
