Assessment in Education Shelleyann Scott, Donald E. Scott, Charles F. Webber, 2015-10-20 This book provides key insights into how educational leaders can successfully navigate the turbulence of political debate surrounding leading student assessment and professionalised practice Given the highly politicised nature of assessment it addresses leaders and aspiring leaders who are open to being challenged willing to explore controversy and capable of engaging in informed critical discourse The book presents the macro concepts that these audiences must have to guide optimal assessment policy and practice Collectively the chapters highlight important assessment purposes and models including intended and unintended effects of assessment in a globalised context The book provides opportunities to explore cultural similarities and particularities It invites readers to challenge taken for granted assumptions about ourselves and colleagues in other settings The chapters highlight the cultural clashes that may occur when cross cultural borrowing of assessment strategies policies and tools takes place However authors also encourage sophisticated critical analyses of potential lessons that may be drawn from other contexts and systems Readers will encounter challenges from authors to deconstruct their assessment values beliefs and preconceptions Indeed one purpose of the book is to destabilise certainties about assessment that prevail and to embrace the assessment possibilities that can emerge from cognitive dissonance **Adult Intentions, Student**

Perceptions Kristin E. Reimer, 2018-12-01 Restorative justice RJ is an idea whose time may have finally arrived Although the concept has ancient roots and the term has existed in Western societies since the 1970s only recently has it gained general public recognition In schools RJ's popularity is rising world wide In fact education is the fastest growing area for the practice of RJ Despite an increasing number of schools embracing the approach it is not clear what educational RJ practitioners are trying to achieve **Adult Intentions Student Perceptions** How Restorative Justice is Used in Schools to Control and to Engage focuses on the use of RJ in one school in Scotland and one in Canada While important to understand the intentions of educators in using RJ in schools those aims must be examined alongside the actual impact that such practices have on students RJ can be understood and experienced in dramatically different ways by those implementing it For some RJ is about creating an environment of and for student engagement that challenges traditional systems of discipline and facilitates learning For others RJ is simply another tool for solidifying compliance and meting out punishment albeit in a kinder gentler way **Adult Intentions Student Perceptions** provides the opportunity to delve deeply into the stories of two schools and the adults and young people who inhabit them and consider the broad impact that differing educator understandings of RJ have on students **Adult Intentions Student Perceptions** is a timely book for RJ advocates and critics alike It challenges a common assumption of some RJ advocates that implementing RJ necessarily creates a classroom environment of social engagement where students are empowered to engage with one another and think critically and school relationships and hierarchies are transformed The student experience relayed in this book shows that RJ can as readily be mobilized to create classroom

environments of social control where students are taught obedience and compliance and authority and hierarchy are reinforced Reimer argues that RJ by itself does not guarantee certain qualities of relationship but RJ does allow us to examine relational qualities and ask questions of how school relationships are used to engage and or control students **Resources**

in Education ,1998 **Global Action on School Library Guidelines** Barbara A. Schultz-Jones,Dianne Oberg,2015-06-16 This book celebrates the new IFLA School Library Guidelines and shows how the Guidelines can be used in improving school library services Each chapter describes innovative initiatives for developing implementing and promoting school library guidelines The book provides inspiration and guidance for the creation of national school library standards and for the development and use of standards and guidelines to change school library practice to define the teaching role of school librarians to guide the initial preparation of school librarians and to advocate for school library services Contributors to the book come from around the world Australia Canada Ethiopia France Malaysia Norway Poland Portugal Spain Sweden and the United States Their work illustrates the shared commitment of school librarians around the world to teaching and learning for all as envisioned in the IFLA UNESCO School Library Manifesto **Physical and Health Education in Canada**
