Feminism Enchanted Yanbing Er, 2025-09-16 The feminist movement has long been guided by the promise of progress for women politically economically and in personal life But we live in a time when history appears to be moving backward into a more reactionary past How might feminist thought make sense of this plight without returning to the liberal Western framework of progressive reason Yanbing Er argues that the key to this predicament lies in the capacity of the literary imagination to invigorate feminist critical practice She reveals how a literary mode of enchantment fundamentally transforms feminist theory and praxis imagining new and surprising possibilities that had once been foreclosed by dominant paradigms of progress Enchantment illuminates forms of existence that have been lost erased or obscured allowing us to encounter both feminism and the world anew Er finds incantatory power in the works of writers such as Rivers Solomon Akwaeke Emezi Ruth Ozeki and Alexis Wright who disrupt hegemonic ways of thinking by summoning otherwise unimaginable ways of being Their works collectively present an immersive and expansive feminist imaginary that makes space for marginalized histories narratives and lifeworlds Elegantly written and boldly argued **Feminism Enchanted** shows how poetic language conjures alternative

futures for feminist thought Novel Ecologies Allison Carruth, 2025-03-04 Tracing the convergence of ecology and engineering over the last three decades this book pinpoints a new environmental paradigm that the author calls Nature Remade Allison Carruth's *Novel Ecologies* shows how the tech industry has taken up the wilderness mythologies that shaped one strain of American environmentalism over the last century Calling this twenty first century environmental imagination Nature Remade Carruth describes a distinctly West Coast framework that is at once nostalgic and futuristic Through three case studies synthetic wildlife the digital cloud and space colonization the book shows Nature Remade to be a quasi religious belief in venture capitalism and big tech This paradigm thus imagines a future in which species ecosystems and entire planets are re generated and re created through engineering *Novel Ecologies* challenges the conviction that climate change and other environmental crises must be met with ever larger scale forms of technological intervention Against the new worlds conjured by Google Meta Open AI Amazon SpaceX and a host of lesser known start ups Carruth marshals writers and artists who imagine provisionally hopeful environmental futures while refusing to forget the histories that have made the world what it is On this track of the book Carruth discusses the works of Octavia Butler Becky Chambers Jennifer Egan Ruth Ozeki Craig Santos Perez Tracy K Smith Jeff VanderMeer Saya Woolfalk and many more Their novels poems installation artworks and expressive media offer a speculative world built on livable communities rather than engineered lifeforms

The Story of "Me" Marjorie Worthington, 2018-11-01 Autofiction or works in which the eponymous author appears as a fictionalized character represents a significant trend in postwar American literature when it proliferated to become a kind of postmodern cliché *The Story of Me* charts the history and development of this genre analyzing its narratological effects and discussing its cultural implications By tracing autofiction's conceptual issues through case studies and an array of texts Marjorie Worthington sheds light on a number of issues for postwar American writing the maleness of the postmodern canon and anxieties created by the supposed waning of male privilege the relationship between celebrity and authorship the influence of theory the angst stemming from claims of the death of the author and the rise of memoir culture Worthington constructs and contextualizes a bridge between the French literary context from which the term originated and the rise of autofiction among various American literary movements from modernism to New Criticism to New Journalism *The Story of Me* demonstrates that the burgeoning of autofiction serves as a barometer of American literature from modernist authorial effacement to postmodern literary self consciousness Culturally Responsive Reading Durthy A.
