A Woman Doing Life Notes From A Prison For Women:

Women Doing Life Lora Bex Lempert, 2016-02-19 In *Women Doing Life* Lora Bex Lempert examines the carceral experiences of women serving life sentences presenting a typology of the ways that life sentenced women grow and self actualize resist prison definitions reflect on and own their criminal acts and ultimately create meaningful lives behind prison walls Looking beyond the explosive headlines that often characterize these women as monsters Lempert offers rare insight into this vulnerable little studied population Her gendered analysis considers the ways that women do crime differently than men and how they have qualitatively different experiences of imprisonment than their male counterparts Provided by publisher

A Woman Doing Life Erin George, 2010 *A Woman Doing Life* is the only book that tells stories of women in prison from the inside out Author and inmate Erin George draws a vivid and uniquely raw portrait of female life in prison detailing her own responses to incarceration as well as her observations of prison relationships death and sickness reactions from friends and family and even cooking in prison The text also features poignant stories from other female inmates Edited by Robert Johnson esteemed scholar and editor of Victor Hassine's *Life Without Parole* Fourth Edition OUP 2009 each chapter of the text opens with a helpful introduction that guides students as they read An Afterword by noted scholar Joycelyn Pollock further helps place inmate testimonies into an academic context Offering profound insight into the too often neglected issue of women in the criminal justice system *A Woman Doing Life* is a must for courses in women and crime gender and crime and women in prison

Women, Incarceration, and Human Rights Violations Alana Van Gundy, Amy Baumann-Grau, 2016-02-17 A rich examination of the neglect and abuses occurring to women in correctional facilities *Women Incarceration and Human Rights Violations* draws upon a wealth of case studies from around the world and class action lawsuits to shed light on covert abuse such as sexual or physical abuse as well as overt abuse such as the denial of medical treatment Adopting a feminist framework this book offers a comparative evaluation of abuse in domestic and international correctional facilities demonstrating the extent to which women are at high risk of being sexually abused and re victimized in the correctional system where pregnancy and other specific medical and health issues are consistently ignored Calling attention to the necessity of addressing the gender specific needs of women who are incarcerated *Women Incarceration and Human Rights Violations* offers a review of current policy laws and regulation bearing on the issue while providing concrete recommendations and policy changes to address abuses As such it will appeal to sociologists criminologists and policymakers concerned with questions of gender penology and institutional abuse

Crime and Justice in America Joycelyn M. Pollock, 2012 This text offers a concise affordable and reader friendly introduction to the criminal justice system It explores the system in four sections the criminal justice system as social control law enforcement as social control the law as social control and corrections as social control

Life Imprisonment Dirk Van Zyl Smit, Catherine Appleton, 2019-01-14 *Life imprisonment* has replaced capital punishment as the most common sentence imposed for heinous crimes worldwide As a

consequence it has become the leading issue in international criminal justice reform In the first global survey of prisoners serving life terms Dirk van Zyl Smit and Catherine Appleton argue for a human rights based reappraisal of this exceptionally harsh punishment The authors estimate that nearly half a million people face life behind bars and the number is growing as jurisdictions both abolish death sentences and impose life sentences more freely for crimes that would never have attracted capital punishment Life Imprisonment explores this trend through systematic data collection and legal analysis persuasively illustrated by detailed maps charts tables and comprehensive statistical appendices The central question can life sentences be just is straightforward but the answer is complicated by the vast range of penal practices that fall under the umbrella of life imprisonment Van Zyl Smit and Appleton contend that life imprisonment without possibility of parole can never be just While they have some sympathy for the jurisprudence of the European Court of Human Rights they conclude that life imprisonment in many of the ways it is implemented worldwide infringes on the requirements of justice They also examine the outliers states that have no life imprisonment to highlight the possibility of abolishing life sentences entirely Life Imprisonment is an incomparable resource for lawyers lawmakers criminologists policy scholars and penal reform advocates concerned with balancing justice and public safety

Global Criminology K. Jaishankar, Natti Ronel, 2013-03-25 Global criminology is an emerging field covering international and transnational crimes that have not traditionally been the focus of mainstream criminology or criminal justice Global Criminology Crime and Victimization in a Globalized Era is a collection of rigorously peer reviewed papers presented at the First International Conference of the South Asian Society of Criminology and Victimology SASCV that took place in Jaipur India in 2011 Using a global yardstick as the basis for measurement the fundamental goal of the conference was to determine criminological similarities and differences in different regions Four dominant themes emerged at the conference Terrorism In a topic that operates at the intersection of international law international politics crime and victimization some questions remain unanswered Is terrorism a crime issue or a national defense issue Should terrorists be treated as war criminals soldiers or civil criminals How can international efforts and local efforts work together to defeat terrorism Cyber Crimes and Victimization Cyber space provides anonymity immediate availability and global access Cyber offenders easily abuse these open routes As cyber space develops cyber crime develops and grows To achieve better cyber security global criminologists must explore cyber crimes from a variety of perspectives including law the motivation of offenders and the impact on victims Marginality and Social Exclusion Globalization is manifest in the fast transition of people between places societies social classes and cultures Known social constructions are destroyed for new ones and marginalized people are excluded from important material social and human resources This section examines how we can provide inclusion for marginalized individuals in the global era and protect them from victimization Theoretical and Practical Models of Criminal Victimization The process of globalization as mentioned above creates new elements of victimization But globalization can also become an opportunity for confronting and defeating

victimization through improved sharing of knowledge and increased understanding of the humanity of the weak The emerging global criminology comprises diversity of attitudes explanations and perspectives The editors of this volume recognize that in the global village there is room for solid contributions to the field of criminology and criminal justice This collection is a move in this direction It is hoped that these articles will help to expand the boundaries of criminology criminal justice and victimology with a view towards reducing crime worldwide The American Prison Francis T. Cullen, Mary K. Stohr, 2014 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass imprisonment is no longer sustainable At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders The American Prison Imagining a Different Future by Francis T Cullen Cheryl Lero Johnson and Mary K Stohr pulls together established correctional scholars to imagine what this prison future might entail Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay **Prisons** Ashley G. Blackburn, Shannon K. Fowler, Joycelyn M. Pollock, 2014 This is a balanced comprehensive text designed to introduce students and other readers to the reality of corrections Beginning with an overview of prisons throughout history the text moves to an analysis of the philosophy and practice of modern corrections Detailed descriptions of life on the inside an analysis of trends in current correctional populations and an overview of the future of corrections make Prisons Today and Tomorrow the most current and relevant correctional textbook on the market today At every step students are encouraged to engage in critical and analytical discussion on the role of incarceration and the challenges faced by corrections personnel lawmakers and newly released prisoners attempting to reintegrate into society The revised third edition includes fully updated information and all new chapters and contributors including an up to date examination of modern issues facing prisoners and prison administration With its accessible but comprehensive approach and clear realistic style this text is suitable for corrections and sociology students at both the undergraduate and graduate level Featuring chapters contributed by leading authorities in the field current case studies and research and insightful probing questions for further discussion this text is an essential text for any student in the field **Freedom Inside?** Farah Godrej, 2022 An estimated forty million people in the United States regularly practice yoga and as an industry it generates over nine billion dollars annually A major reason for its popularity is its promise of mental and physical well being yoga and meditation are thought to be spiritual paths to self improvement Yoga is also widely practiced in prisons another large business in the United States Prisons in all fifty states offer yoga and meditation as a form of rehabilitation But critics argue that such practices can also have disempowering effects due to their emphasis on acceptance non judgment and non reaction

If the root of suffering is in the mind as the philosophy behind yoga and meditation suggests then injustice including mass incarceration may be reduced to a mental state requiring coping techniques rather than a more critical mindset Others insist that yoga can heighten people's attention to structural violence hierarchy racism and inequity In fact some of history's most radical activists including M K Gandhi and Thich Nhat Hanh traced their ethical and political commitments to their grounding in yogic or meditative traditions Yoga and meditation programs no doubt offer crucial respite for those who are incarcerated but what sort of political effects do they have Do they reinforce the neoliberal logic of mass incarceration which emphasizes individual choices or can they assist marginalized people in navigating systemic injustice Drawing on collaborations with incarcerated practitioners interviews with volunteers and formerly incarcerated practitioners and her own fieldwork with organizations offering yoga meditation classes inside prisons Farah Godrej examines both the promises and pitfalls of yoga and meditation Freedom Inside reveals the ways in which incarcerated persons have used yogic practices to resist the dehumanizing effects of prisons and to heighten their awareness of institutional racism and mass incarceration among poor people and people of color Godrej argues that while these practices could unwittingly exacerbate systemic forms of inequity and injustice they also serve as resources for challenging such injustice whether internally via the realm of belief or externally through action A combination of ethnography and political theory Freedom Inside reimagines the concept of resistance in a way that considers people's interior lives as a crucial arena for liberation

Hidden Healers Stephanie S. Covington, 2024-04-23 A gripping and deeply felt examination of incarcerated women's lives With unflinching clarity Hidden Healers cuts through the myths about incarcerated women to expose the all too real brutalities they face within a criminal legal system never designed for them Backed by three decades experience providing therapeutic programs inside prisons across the United States trauma specialist Dr Stephanie Covington has used her unique access to amplify the voices of the women themselves Their stories illuminate realities most never see that most women who get caught up in the criminal justice system have themselves been victims of harm that the degradations of today's prisons and jails only magnify their trauma and that incarcerated women regularly risk punishment to tend to one another's well being in unexpected acts of kindness Grounded in research and rich with personal narrative Hidden Healers is a poignant and riveting look inside women's prisons and jails and what we can do to help
