Subcommittee on Department Operations, Research, and Foreign Agriculture,1992 *The Message of the Indus Seals and Tablets* Egbert Richter-Ushanas,2013-01-08 Since the publication of the concordances of the inscriptions of the Indus seals many people have been working on the solution of the riddle presented by their 5000 years old script At first sight the task does not appear too difficult as there are pictograms that can easily be recognized A lot of signs are geometric but this does not seem to be an insurmountable obstacle either as they are often combined with the pictograms The decipherments that were based on these similarities resulted however only in the reading of some inscriptions as more or less obscure names sometimes not even a phonetic value could be given Nevertheless they are often presented as complete decipherments to the public On this account the pretension that the Indus script is deciphered meets with increasing suspicion and is exposed to ridicule even Many scholars working in this field are nowadays of the opinion that the Indus script is altogether indecipherable if not a bilingual of considerable size turns up The approach to a decipherment presented in this volume makes avail of a short bilingual from Failaka but its master key is the discovering of the symbolic and the linguistic connection of the Indus signs with the R g Veda More than 200 inscriptions among them the longest and those with the most interesting motifs have been decoded here by setting them word after word in relation to R g Vedic mantras The results that were gained by this method of comparison for the pictographic and phonetic values of the Indus signs are surprising and far beyond the most daring phantasy i e beyond the analytic limits of thought This approach is the opposite of subjectivism The signs of all inscriptions have been found in this way have been collected in a sign dictionary improved for a great deal in the present edition By the deciphering of the Indus signs many problems of the R g Veda could be solved too and new insights be won for example in the question of the age of the Veda and the origin of its myths or the nature of the Soma plant **Facts and Artefacts** Annette Hagedorn,Avino'am Šālēm,2007-01-01 The scholarly search on the art of the object is of enduring interest and enjoys a new renaissance in the last few years This book mainly explores the art and craft of Islamic artefacts and presents to the reader a diverse range of approaches Despite this variety in which also artefacts of the pre Islamic period as well as orientalised European artefacts of the modern era are included there is an overarching theme the linking of the interpretation of objects and their specific aesthetics to textual sources and the aim of setting them in historical and artistic context In this impressive collection honouring the German scholar of Islamic art Jens Kroger on his 65th birthday Avinoam Shalem and Annette Hagedorn bring together contributions from a highly distinguished group of scholars of Asiatic Sasanian Islamic as well as European art history Unpublished artefacts and new interpretations are presented in this book The Role of Human Sacrifice in the Ancient Near East Alberto Ravinell Whitney Green,1975 **Christian Baptism** Richard Ingham,1871 **A Handbook on Christian Baptism: Christian baptism, its subjects** Richard Ingham,1871 **Sexy**
