Screening Torture Michael Flynn, Fabiola F. Salek, 2012 Before 9 11 films addressing torture outside of the horror slasher genre depicted the practice in a variety of forms In most cases torture was cast as the act of a desperate and depraved individual and the viewer was more likely to identify with the victim rather than the torturer Since the terrorist attacks of September 11 2001 scenes of brutality and torture in mainstream comedies dramatic narratives and action films appear for little other reason than to titillate and delight In these films torture is devoid of any redeeming qualities represented as an exercise in brutal senselessness carried out by authoritarian regimes and institutions This volume follows the shift in the representation of torture over the past decade specifically in documentary action and political films It traces and compares the development of this trend in films from the United States Europe China Latin America South Africa and the Middle East Featuring essays by sociologists psychologists historians journalists and specialists in film and cultural studies the collection approaches the representation of torture in film and television from multiple angles and disciplines

Interrogation: World War II, Vietnam, and Iraq James A. Stone, David P. Shoemaker, Nicholas R. Dotti, 2010-03-09 In September 2004 the Intelligence Science Board an advisory board appointed by the Director of National Intelligence initiated the Study on Educating Information EI This study is an ongoing effort to review what is known scientifically about interrogation and other forms of human intelligence collection and to chart a path to the future As part of our efforts we have worked closely with faculty and students of the National Defense Intelligence College The NDIC Press published Educating Information Interrogation Science and Art Foundations for the Future a book based on Phase I of the Study on EI Three students Special Agent James Stone U S Air Force Special Agent David Shoemaker U S Air Force and Major Nicholas Dotti U S Army completed master s thesis studies during Academic Year 2006 07 on topics related to interrogation Special Agent Stone researched U S efforts during World War II to develop language and interrogation capacities to deal with our Japanese enemy He found that military leaders often working with civilian counterparts created and implemented successful strategies building on cultural and linguistic skills that substantially aided the war effort for the U S and its Allies Special Agent Shoemaker studied the experiences of three successful interrogators during the Vietnam War Like Stone Shoemaker highlights the importance of a deep understanding of the language psychology and culture of adversaries and potential allies in other countries Major Dotti examined recent policy and practice with regard to tactical and field interrogations especially with regard to the efforts of Special Forces soldiers in Iraq He concludes that the letter of current doctrine contradicts its intent Major Dotti offers recommendations that he believes are both consistent with the intent of military doctrine and likely to increase the effectiveness of U S interrogation practices in the field P v **American Torture** Michael

Otterman, 2007-01-01 Contrary to US government assertions the Abu Ghraib photos do not reflect the perverse handiwork of a few bad apples As American Torture reveals tortures such as sensory deprivation sexual humiliation and forced standing are core elements of the American detention regime a product of more than sixty years of government research and development fully detailed in extensive CIA manuals In the wake of the Abu Ghraib scandal mainstream media and human rights organisations have exhaustively documented the American use of torture in detention centres around the world Although expansive these reports lack context American Torture examines the origins of this detention regime and traces how it was refined spread and kept legal Along the way American Torture uncovers the effects of state sponsored torture and deconstructs the myths espoused by its proponents What are the ramifications of such praxis for global security The book will also feature an interview with Mamdouh Habib and look at the plight of Guantanamo Bay detainee David Hicks *Torture and Impunity* Alfred W. McCoy, 2012-08-24 Many Americans have condemned the enhanced interrogation techniques used in the War on Terror as a transgression of human rights But the United States has done almost nothing to prosecute past abuses or prevent future violations Tracing this knotty contradiction from the 1950s to the present historian Alfred W McCoy probes the political and cultural dynamics that have made impunity for torture a bipartisan policy of the U S government During the Cold War McCoy argues the U S Central Intelligence Agency covertly funded psychological experiments designed to weaken a subject's resistance to interrogation After the 9 11 terrorist attacks the CIA revived these harsh methods while U S media was flooded with seductive images that normalized torture for many Americans Ten years later the U S had failed to punish the perpetrators or the powerful who commanded them and continued to exploit intelligence extracted under torture by surrogates from Somalia to Afghanistan Although Washington has publicly distanced itself from torture disturbing images from the prisons at Abu Ghraib and Guantanamo are seared into human memory doing lasting damage to America's moral authority as a world leader
