Behind Enemy Lines: A Novel of the Battle of the Bulge Steven Blair Wheeler, 2015-03-26 *Behind Enemy Lines* is the second part of the three book trilogy *Still in the Woods*. The trilogy beginning with *Fight to Survive* tells the heroic story of American soldiers engulfed in Hitler's surprise winter offensive in December 1944. In the opening days of what came to be known as the Battle of the Bulge, American units were overrun or swept aside. American soldiers fought against overwhelming odds only to face the choice of surrender or risk evading the enemy to regain US lines. Rallying to an intrepid American lieutenant, several dozen GIs decide that they will hold out in the Belgian forest until the Allies push the Nazis back into Germany. Lieutenant Arthur Hill organizes his volunteers into a unit to wage their own winter war. Their success in raiding supply dumps and ambushing German convoys gains needed food and supplies but attracts the attention of the SS commander in the area. *Sturmabteilung* leader Karl Grabner becomes determined to wipe out the troublesome band of American partisans. The *Still in the Woods* series reaches the thrilling conclusion in *Forest Battles*.

Tales Times Ten Eligah Boykin, 2015-10-08 Here is a new book of ten short stories from the author of *ALPHONSO GENTLE TALES TIMES TEN*. It will begin with the struggles of an up and coming young professional stage magician. We find him playing finders keepers as *MISTER MAGIC* here in Detroit. Next in *a TWINKLING OF AN EYE* we are a witness to one of those old time negotiations for a better life. After that we visit a library of the future as a student requests *THE DOCTOR CLARK FILES* in order to study the taboo deviant sexual behavior of members of the Twentieth Century. Then we are invited into the thought process of an architect doing a little puzzle to kill time in *HOLY CROSSWORD DOROTHY*. This is followed by an examination of *TACTILE UNDERSTANDING*. Better than halfway through we are invited to the *TECHTOWN BOOK CLUB*. We barely close the book on this adventure when we are alerted to the din that comes from the *LAND OF A THOUSAND CRIES*. Back to the future we go now when the screams die down for a further learned examination of the state of *SEX EDUCATION*. Thoroughly briefed after this on study materials and classroom requirements we then go *SOLVING FOR X* in the here and now. Finally with all this said and done we get out the handcuffs and go for our guns as we are very firmly affixing our *SPIRITUAL SIGNATURE* to this *TALES TIMES TEN*.

Mammalogy George A. Feldhamer, Lee C. Drickamer, Stephen H. Vessey, Joseph F. Merritt, Carey Krajewski, 2015-01-01 Reflecting the expertise and perspective of five leading mammalogists, the fourth edition of *Mammalogy: Adaptation, Diversity, Ecology* significantly updates taxonomy, includes a new chapter on mammalian molecular phylogenetics, and highlights several recently described species. There are close to 5,500 species in the class Mammalia, including the blue whale, the largest animal that has ever lived, and the pygmy shrew, which weighs little more than a penny. The functional diversity of mammals has allowed them to play critical roles in every ecosystem, whether marine, freshwater, alpine, tundra, forest, or desert. Many mammal species are critically endangered and present complex conservation and management challenges. This book touches on those challenges, which are often precipitated by overharvesting and habitat

loss as well as emerging threats such as the impact of wind turbines and white nose syndrome on bats and chronic wasting disease on deer Among the updates and additions to the fourth edition of Mammalogy are numerous new photos figures and cladograms over 4 200 references as well as A completely new chapter on mammalian phylogeny and genomics Current taxonomy including major changes to orders suborders and superfamilies of bats and rodents An explanation of the recent inclusion of whales with terrestrial even toed ungulates Updates on mammalian structural functional adaptations and fossil history recent advances in our understanding of phylogeny biogeography social behavior and ecology A discussion of two new orders and thirteen newly recognized extant families Reflections on the implications of climate change for mammals Thorough examinations of several recently described species including Durrell's vontsira *Salanoia durrelli* and the Laotian rock rat *Laonastes aenigmamus* An explanation of mammalian biomechanics such as that seen in lunge feeding of baleen whales Breakout boxes on unique aspects of mammals including the syntax of bat songs singing mice and why there are no green mammals unless we count algae covered sloths Maintaining the accessible readable style for which Feldhamer and his coauthors are well known this new edition of Mammalogy is the authoritative textbook on this amazingly diverse class of vertebrates

Gregory's New York Brigade: Valgene L. Dunham, 2015-12-11 At the beginning of October 1864 the only equipment most Union soldiers near Petersburg Virginia needed was a shovel including Gen Edgar Gregory's new reserve brigade which was digging trenches around the besieged city Most of the brigade's volunteer members from New York had never fired a musket upon marching into the swamps and woods southwest of Petersburg But the dusty blue collar workers became a force to be reckoned with as they dug and marched westward to force Gen Robert E Lee to extend forces away from Petersburg Following the brigade's largest battle Five Forks the Union marched rapidly westward to keep Lee from joining Gen Joseph Johnston The brigade was selected to assist in the surrender at Appomattox Those acts alone would have solidified the brigade's place in history but its men also served as caretakers of the peace during their march back to Washington D C especially after the assassination of President Lincoln Gregory's New York Brigade deserves to be honored as much as those who fought in the major battles of the war Find out why in this detailed account of its well deserved place in history

The Last Generation Peter S. Carmichael, 2015-12-01 Challenging the popular conception of Southern youth on the eve of the Civil War as intellectually lazy violent and dissipated Peter S Carmichael looks closely at the lives of more than one hundred young white men from Virginia's last generation to grow up with the institution of slavery He finds them deeply engaged in the political economic and cultural forces of their time Age he concludes created special concerns for young men who spent their formative years in the 1850s Before the Civil War these young men thought long and hard about Virginia's place as a progressive slave society They vigorously lobbied for disunion despite opposition from their elders then served as officers in the Army of Northern Virginia as frontline negotiators with the nonslaveholding rank and file After the war however they quickly shed their Confederate radicalism to pursue the political goals of home rule and New South economic

development and reconciliation Not until the turn of the century when these men were nearing the ends of their lives did the mythmaking and storytelling begin and members of the last generation recast themselves once more as unreconstructed Rebels By examining the lives of members of this generation on personal as well as generational and cultural levels Carmichael sheds new light on the formation and reformation of Southern identity during the turbulent last half of the nineteenth century

Hopewell Ceremonial Landscapes of Ohio Mark Lynott,2015-02-05 Nearly 2000 years ago people living in the river valleys of southern Ohio built earthen monuments on a scale that is unmatched in the archaeological record for small scale societies The period from c 200 BC to c AD 500 Early to Middle Woodland witnessed the construction of mounds earthen walls ditches borrow pits and other earthen and stone features covering dozen of hectares at many sites and hundreds of hectares at some The development of the vast Hopewell Culture geometric earthwork complexes such as those at Mound City Chillicothe Hopewell and the Newark earthworks was accompanied by the establishment of wide ranging cultural contacts reflected in the movement of exotic and strikingly beautiful artefacts such as elaborate tobacco pipes obsidian and chert arrowheads copper axes and regalia animal figurines and delicately carved sheets of mica These phenomena coupled with complex burial rituals indicate the emergence of a political economy based on a powerful ideology of individual power and prestige and the creation of a vast cultural landscape within which the monument complexes were central to a ritual cycle encompassing a substantial geographical area The labour needed to build these vast cultural landscapes exceeds population estimates for the region and suggests that people from near and possibly far travelled to the Scioto and other river valleys to help with construction of these monumental earthen complexes Here Mark Lynott draws on more than a decade of research and extensive new datasets to re examine the spectacular and massive scale Ohio Hopewell landscapes and to explore the society that created them
