Chords and Arcs

Mathematical Practice Standards
 Students will use a variety of representations, using mathematical models to represent the problem.

Objectives: Students understand the relationship between the length of a chord and the length of the arc it subtends.

How do you find the length of a chord in a circle?

Learning Objectives

Find the length of a chord in a circle, given the length of the arc it subtends.

Activities

In this activity, you will use the relationship between the length of a chord and the length of the arc it subtends to find the length of a chord in a circle.

Example 1: Understanding Find the length of a chord in a circle, given the length of the arc it subtends.

The following example shows how to find the length of a chord in a circle, given the length of the arc it subtends.

Example 12-2 and the Calculator

Problem

Find the length of a chord in a circle, given the length of the arc it subtends.

Answer
