Twelve Step Facilitation Therapy Manual Joseph Nowinski,Stuart Baker,Kathleen M. Carroll,1995 Project MATCH a 5 year study was initiated by the Treatment Research Branch of NIAAA in 1989 The objective of the project is to determine if varying subgroups of alcohol abusing or dependent patients respond differentially to three treatments 1 Twelve step

facilitation therapy 2 Cognitive behavioral coping skills therapy and 3 Motivational enhancement therapy Each treatment is delivered during a 12 week period by trained therapists following a standardized protocol The twelve step facilitation approach is grounded in the concept of alcoholism as a spiritual and medical disease The content of this intervention is consistent with the 12 Steps of Alcoholics Anonymous AA with primary emphasis given to Steps 1 through 5 The facilitation program described in this manual is intended for use in brief individual outpatient treatment for persons who satisfy the criteria for a diagnosis of alcohol dependence and abuse It is intended to be flexible enough to allow for individual treatment planning and for use as a primary treatment for persons who have never been exposed to the 12 Steps of Alcoholics Anonymous AA as well as for individuals who have had such exposure for example through prior treatment

A Guide to Treatments that Work Peter E. Nathan, Jack M. Gorman, 2007-03-15 Much about this third edition of *A Guide to Treatments That Work* remains as it was in the first and second editions Like its predecessors this edition offers detailed evaluative reviews of current research on empirically supported treatments written in most instances by clinical psychologists and psychiatrists who are major contributors to that literature Similarly the standards by which the authors were asked to evaluate the methodological rigor of the research on treatments have also remained the same As before they provide information on the quality of the research on treatment efficacy and effectiveness that is reviewed
