

Chapter 26 Sound

Exercises

26.1 The Origin of Sound (page 515)

Match each sound source with the part that vibrates.

- | Sound Source | Vibrating Part |
|------------------------|------------------------------------|
| <u>a</u> 1. violin | a. strings |
| <u>b</u> 2. your voice | b. reed |
| <u>d</u> 3. saxophone | c. column of air at the mouthpiece |
| <u>c</u> 4. flute | d. vocal chords |
- Sound waves are a type of longitudinal wave.
 - What normally determines the frequency of sound waves?
The frequency of sound waves produced normally have the same frequency as the vibrating source.
 - Define pitch.
Pitch is our subjective impression about the frequency of sound.
 - As people grow older, they often have more trouble hearing sounds at the high end of the range of frequencies.
 - Sound waves with frequencies below the normal range are infrasonic waves.
 - Sound waves with frequencies above the normal range are ultrasonic waves.

26.2 Sound in Air (pages 515–517)

- Is the following sentence true or false? Sound vibrates the air much like particles move back and forth along a stretched spring. true
- A pulse of compressed air is called a compression, and a pulse of low-pressure air is called a rarefaction.
- For all wave motion, it is not the medium that travels, but a pulse that travels.
- Explain what happens when a tuning fork is struck against one end of an open tube.
When the prong is struck, a compression enters the tube. When the prong swings away, a rarefaction follows the compression. A series of compressions and rarefactions is produced within the tube as the fork continues to vibrate.

26.3 Media That Transmit Sound (page 517)

- What did Native Americans learn long ago when they put their ears to the ground?
They could hear the hoofbeats of distant horses through the ground before they could hear them through the air.

By taking principles and concepts presented in the text and applying them to professional practice students will be able to assess how their interests and skills can contribute to the growing field of sport management. Applied Sport Management Skills Second Edition has been thoroughly updated to enhance the educational experience. Two new features have been added to the second edition: Social Media Exercises expose students to the expanding role of social media in managing a sport organization and Starting a Sport Business features encourage students to explore the real world needs of sport entrepreneurship such as developing an organizational structure formulating ideas on leading employees and controlling the financial aspects of their sport business. These new tools complement popular features from the first edition to help students understand leadership and management in the sport industry. Reviewing Their Game Plan chapter opening scenarios revisited throughout each chapter provide a cohesive thread to keep students focused on how sport managers use the concepts on the job. Chapter closing case studies questions and exercises help students apply knowledge to specific situations. Applying the Concept question boxes provide an opportunity for critical thinking by asking how specific concepts are relevant to a sport situation. Time Out boxes demonstrate how text concepts relate to students' actual experience in sports including part time full time and summer jobs. Self assessment exercises offer insight into students' strengths and weaknesses. Behavior models provide step by step guidance on handling day to day situations that students will face in the sport setting. Developing Your Skills features learning outcomes and key terms are revisited throughout the chapter to reinforce key points. Instructor resources have been updated with this edition and the expanded instructor guide provides advice on using the student web study guide with the book material to better engage students. The web study guide is better organized and integrated with the text to help students use the learning activities in a dynamic and interactive setting. Exercises appearing in the book are correspondingly numbered in the web study guide where students may test their understanding with quizzes and other activities that further reinforce important concepts. Many activities in the web study guide can be completed as graded class assignments whereas others provide
