Facilities Management and Corporate Real Estate Management as Value Drivers Per Anker Jensen, Theo van der Voordt, 2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and relatively new management disciplines with developing international professions and increasing academic attention Both disciplines have

from the outset a strong focus on controlling and reducing cost for real estate facilities and related services In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values The findings are connected to a new Value Adding Management model The book is research based with a focus on guidance to practice It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice This is a much needed resource for practitioners researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level

Aligning Strategy and Sales Frank V. Cespedes, 2014 Most firms face a wide gap between their strategic goals and their sales and other go to market efforts Aligning these activities is or should be an important component of competitive advantage for entrepreneurs and established companies Yet for most it isn't This book is about aligning strategy and go to market efforts It starts by explaining why many sales problems in companies are really strategic alignment issues It helps managers understand and diagnose both the overt and hidden costs of not aligning strategic goals with sales initiatives and why getting better at selling typically requires more than a motivational speech sales force reorganization new incentives or a good training seminar It outlines a process for articulating strategy in ways that people in the field can understand and in ways that help strategy formulators understand the required sales tasks inherent in strategic plans for the enterprise Given a coherent strategy the book provides a framework for analyzing and managing the core levers available to firms when they seek to align selling behaviors with sales tasks and examines each lever Readers will learn how to synchronize strategy and sales activities across the organization and get value from improving their firm's performance in the following areas How to move from a strategic vision to an integrated selling plan How to build a sales organization to match strategy How to create and maintain the optimal infrastructure and processes Publisher's description

Neurological Rehabilitation Michael P. Barnes, David C. Good, 2013-01-10 Neurological Rehabilitation is the latest volume in the definitive Handbook of Clinical Neurology series It is the first time that this increasingly important subject has been included in the series and this reflects the growing interest and quality of scientific data on topics around neural recovery and the practical applications of new research The volume will appeal to clinicians from both neurological and rehabilitation

backgrounds and contains topics of interest to all members of the multidisciplinary clinical team as well as the neuroscience community. The volume is divided into five key sections. The first is a summary of current research on neural repair, recovery and plasticity. The authors have kept the topics readable for a non-scientific audience and focused on the aspects of basic neuroscience that should be most relevant to clinical practice. The next section covers the basic principles of neurorehabilitation, including excellent chapters on learning and skill acquisition, outcome measurement and functional neuroimaging. The key clinical section comes next and includes updates and reviews on the management of the main neurological disabling physical problems such as spasticity, pain, sexual functioning and dysphagia. Cognitive, emotional and behavioural problems are just as important and are covered in the next section with excellent chapters, for example, on memory and management of executive dysfunction. The final part draws the sections on symptom management together by discussing the individual diseases that are most commonly seen in neurorehabilitation and providing an overview of the management of the disability associated with those disorders. The volume is a definitive review of current neurorehabilitation practice and will be valuable to a wide range of clinicians and scientists working in this rapidly developing field. A volume in the Handbook of Clinical Neurology series, which has an unparalleled reputation as the world's most comprehensive source of information in neurology. International list of contributors including the leading workers in the field. Describes the advances which have occurred in clinical neurology and the neurosciences, their impact on the understanding of neurological disorders and on patient care.
