MARK SCHEME for the May/June 2013 series

0625 PHYSICS

0625/31

Paper 3 (Extended Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

The Lonely Mind of God Sherman O'Brien, 2021-01-26 Current students of philosophy or armchair philosophers Want the answer to the Primordial Existential Question Why is there something rather than nothing While history has produced no shortage of attempted answers clearly none is the answer Now comes the unique perspective of acosmism to provide a complete and plausible answer After a lifetime of reflection acosmist Sherman O'Brien offers this analysis of the issues and a thoughtful reasoned answer to philosophy's most vexing question The acosmic answer requires no faith whatsoever either in supernatural or unexplained causes in fact it discourages it Acosmism rejects both traditional religion and philosophically neglectful science As a metaphysical system it is based on an epistemological insight with implications for immortality determinism ethics and ultimate purpose Reasoned wholly from the ground up its conclusion is the very meaning of existence The solution to the Omniscience Riddle becomes the key to understanding how the question is best stated and understood This book represents one person's effort to make sense of what is true and what only seems to be so Why is there something rather than nothing What is your potential role in the entirety of experience This foray into acosmism offers a path to the genuine understanding of both existence and reality Note the main text constitutes roughly two thirds of the total pages the remainder being mostly endnotes

C. Mohr, Ming Hsu, 2015-06-16 Most decisions in life are based on incomplete information and have uncertain consequences To successfully cope with real life situations the nervous system has to estimate represent and eventually resolve uncertainty at various levels A common tradeoff in such decisions involves those between the magnitude of the expected rewards and the uncertainty of obtaining the rewards For instance a decision maker may choose to forgo the high expected rewards of investing in the stock market and settle instead for the lower expected reward and much less uncertainty of a savings account Little is known about how different forms of uncertainty such as risk or ambiguity are processed and learned about and how they are integrated with expected rewards and individual preferences throughout the decision making process With this Research Topic we aim to provide a deeper and more detailed understanding of the processes behind decision making under uncertainty
