The Architect ,1875 *The Amateur Photographer* ,1889 **Security Protocols** Bruce Christianson, Bruno Crispo, James A. Malcolm, Michael Roe, 2003-06-30 The Cambridge International Workshop on Security Protocols has now run for eight years Each year we set a theme focusing upon a specific aspect of security protocols and invite position papers Anybody is welcome to send us a position paper yes you are invited and we don't insist they relate to the current theme in an obvious way In our experience the emergence of the theme as a unifying thread takes place during the discussions at the workshop itself The only ground rule is that position papers should formulate an approach to some unresolved issues rather than being a description of a finished piece of work When the participants meet we try to focus the discussions upon the conceptual issues which emerge Security protocols link naturally to many other areas of Computer Science and deep water can be reached very quickly Afterwards we invite participants to re-draft their position papers in a way which exposes the emergent issues but leaves open the way to their further development We also prepare written transcripts of the recorded discussions These are edited in some cases very heavily to illustrate the way in which the different arguments and perspectives have interacted We publish these proceedings as an invitation to the research community Although many interesting results first see the light of day in a volume of our proceedings laying claim to these is not our primary purpose of publication Rather we bring our discussions and insights to a wider audience in order to suggest new lines of investigation which the community may fruitfully pursue *Telegraphic Journal and Monthly Illustrated Review of Electrical Science* ,1887 **The Telegraphic Journal and Electrical Review** ,1887 *The Electrical Review* ,1887
