David Whitebread, Penny Coltman, 2015-02-20 This best selling text book provides a broad ranging and up to date review of thinking and best practice within nursery and infant education. Written around the basic truth that an effective early years curriculum must start with the children, their needs and their potential, the contributors to this classic text acknowledge that learning must have a strong element of fun, wonder and excitement. Fully revised and updated in light of recent changes to the Early Years curriculum with brand new chapters on assessment, communication, writing, creativity and diversity, the contributors address a range of fundamental issues and principles including an analysis of research into how children learn, discussions of issues such as classroom organisation, curriculum management and assessment, a detailed section on play and language, chapters covering individual curriculum areas including new chapters on music and PSHE. Each chapter combines a review of important principles with practical and inspiring classroom examples throughout. It is essential reading for all Foundations Stage and KS1 trainee teachers, their tutors and mentors, and serving teachers working in the 3-7 age range who wish to reflect upon and develop their practice. National Curriculum In The Early Years Dr Theo Cox, Theo Cox, 2014-05-01 The child centred principles of early years education which emphasize play and holistic learning are being challenged by the implementation of a subject based National Curriculum. The contributors to this book explore this challenge and offer some ways of meeting it practically and productively. Issues covered include pedagogical issues such as the cross curricular topic based teaching, teacher's attitudes to subject knowledge, assessment issues including baseline assessment at the age of five and parental attitudes to the National Curriculum and its content at Key Stage 1. *A Framework for Physical Education in the Early Years* M. E. Carroll, Miss Hazel Manners, Hazel Manners, 2003-10-04 This best selling book examines the National Curriculum Physical Education to Key Stage 1. developing continuity and coherence in children's learning from three to seven years old. It is based around three case studies in which tutors on Initial Teacher Training courses worked with early years practitioners in three different pre-school settings each linked to a primary school. The book describes how they successfully managed to plan and teach integrated themes across the age range in the context of the requirements of the Foundation Stage and the National Curriculum. Each case study has a different focus: science, design and technology, the arts, including an ICT strand, the humanities, including a physical education strand, English and mathematics. Dimensions run through each theme. The book is alive with discussion of children's art, language, drama and music, captured as field notes, writing, drawing and as video tape. Each chapter concludes with suggestions of ways in which readers can develop the ideas in their own contexts. This book will be invaluable reading for students on Early Years courses, Early Years practitioners and tutors and mentors in early childhood education.
