Dailey, Martin Kavka, Lital Levy, 2023-09-08 Spanning the fields of literature history philosophy and theology *Unsettling Jewish Knowledge* adopts a fresh approach to the study of Jewish thought and culture By creatively

foregrounding the role of emotions senses and the imagination in Jewish experience the book invites readers to consider what it means for Jewish identity and experience to be constituted outside the frameworks of reasoned thought and inquiry The collection s eight essays offer innovative and provocative approaches to a diverse array of topics including modern Jewish Christian relations the book of Isaiah contemporary Jewish fiction and philosophical meditations on Jewish law Their bold interpretations of Jewish texts and histories are centered on questions of faith loss prejudice and enchantment and the darker implications of these questions The book s essays also illuminate the importance of desire as a key motivating force in the pursuit of knowledge Weaving together insights from several disciplines Unsettling Jewish Knowledge challenges us to grapple with the unexpected the unconventional and the uncomfortable aspects of Jewish experience and its representations Contributors Anne C Dailey John Efron Yael S Feldman Galit Hasan Rokem Martin Kavka Lital Levy Shaul Magid Eva Mroczek Paul E Nahme Eli Schonfeld Shira Stav **Spenser's Afterlife from Shakespeare to Milton** Jennifer C. Vaught,2025-10-01 This study explores how Shakespeare Ben Jonson Andrew Marvell and Milton among many others appropriated Spenser s long and shorter poems for creating comedy parody and satire Their appropriations which were widely influential on communities of readers writers and intertextual networks from 1590 1660 left an abiding impression of Spenser as a biting satirist Spenser s Afterlife from Shakespeare to Milton The Faerie Queene as Intertextual Environment is the first study to combine the reception history of The Faerie Queene with ecocriticism animal studies and posthumanist tenets of vital materialism and the power of things This poem functions as a powerful nonhuman agent that transforms how readers respond to their environments The Faerie Queene and its afterlives move readers to perceive flaws in political social and religious figureheads and institutions to envision better ones **Rulers and Raptors** Nadir Weber,2025-10-01 Rulers and Raptors argues that by studying animal biographies we gain a new perspective on early modern court society Combining court studies and historical animal studies it brings together two vibrant but rarely combined fields of research and shows how the presence of non human creatures shaped everyday life and political representation in Europe s dynastic centres Through an in depth analysis of the symbolic and practical functions of birds of prey in courtly life the book demonstrates that in the seventeenth and eighteenth centuries falconry was much more than a hunting technique it served as a model for the mutual empowerment of the sovereign and his noble subjects the essence of the Baroque style of government that gave rise to European court society Weber pays close attention to the birds life trajectories and thereby shines a spotlight on a large network of agents including rural bird catchers bourgeois animal traders and noble falconers at court who made the aerial spectacles possible Focusing on these peoples interactions with the raptors the book proposes to rethink early modern human animal relations showing that falcons escaped clear distinctions between wild and domestic nature and civilization The book thus simultaneously shows how early modern European rulers valued raptors as a key symbol of their power and how this very symbol of monarchical sovereignty pointed to the limits of human control over the animal kingdom on the eve

The Perfection of Nature Mackenzie Cooley, 2022-10-26 A deep history of how Renaissance Italy and the Spanish empire were shaped by a lingering fascination with breeding The Renaissance is celebrated for the belief that individuals could fashion themselves to greatness but there is a dark undercurrent to this fabled era of history The same men and women who offered profound advancements in European understanding of the human condition and laid the foundations of the Scientific Revolution were also obsessed with controlling that condition and the wider natural world Tracing early modern artisanal practice Mackenzie Cooley shows how the idea of race and theories of inheritance developed through animal breeding in the shadow of the Spanish Empire While one strand of the Renaissance celebrated a liberal view of human potential another limited it by biology reducing man to beast and prince to stud Race Cooley explains first referred to animal stock honed through breeding To those who invented the concept race was not inflexible but the fragile result of reproductive work As the Spanish empire expanded the concept of race moved from nonhuman to human animals Cooley reveals how as the dangerous idea of controlled reproduction was brought to life again and again a rich complex and ever shifting language of race and breeding was born Adding nuance and historical context to discussions of race and human and animal relations The Perfection of Nature provides a close reading of undertheorized notions of generation and its discontents in the more than human world

animals They reject the nature culture dualism of patriarchal thought and locate animals and humans within nature The goal of these twelve articles is to contribute to the evolving dialogue among feminists ecofeminists animal liberationists deep ecologists and social ecologists in an effort to create a sustainable lifestyle for all inhabitants of the earth Among the issues addressed are the conflicts between Green politics and ecofeminism various applications of ecofeminist theory the relationship of animal liberation to ecofeminism harmful implications of the romanticized woman nature association in Western culture and cultural limitations of ecofeminism In the series *Ethics and Action* edited by Tom Regan 1668 Peter Sahlins, 2017-10-13 When animals and their symbolic representations in the Royal Menagerie in art in medicine in philosophy helped transform the French state and culture Peter Sahlins's brilliant new book reveals the remarkable and understudied animal moment in and around 1668 in which authors including La Fontaine whose *Fables* appeared in that year anatomists painters sculptors and especially the young Louis XIV turned their attention to nonhuman beings At the center of the Year of the Animal was the Royal Menagerie in the gardens of Versailles dominated by exotic and graceful birds In the unfolding of his original and sophisticated argument Sahlins shows how the animal bodies of the menagerie and others were critical to a dramatic rethinking of governance nature and the human The animals of 1668 helped to shift an entire worldview in France what Sahlins calls Renaissance humanimalism toward more modern expressions of classical naturalism and mechanism In the wake of 1668 came the debasement of animals and the strengthening of human animality including in Descartes's animal machine highly contested during the Year of the Animal At the same time Louis XIV and his intellectual servants used the animals of Versailles to develop and then to transform the symbolic language of French absolutism Louis XIV came to adopt a model of sovereignty after 1668 in which his absolute authority is represented in manifold ways with the bodies of animals and justified by the bestial nature of his human subjects 1668 explores and reproduces the king's animal collections in printed text weaving poetry and engraving all seen from a unique interdisciplinary perspective Sahlins brings the animals of 1668 together and to life as he observes them critically in their native habitats within the animal palace itself by Louis Le Vau the paintings and tapestries of Charles Le Brun the garden installations of Andr  Le N tre the literary work of Charles Perrault and the natural history of his brother Claude the poetry of Madeleine de Scud ry the philosophy of Ren  Descartes the engravings of Sbastien Leclerc the transfusion experiments of Jean Denis and others The author joins the nonhuman and human agents of 1668 panthers and painters swans and scientists weasels and weavers in a learned and sophisticated treatment that will engage scholars and students of early modern France and Europe and readers broadly interested in the subject of animals in human history *Queer Entanglements* Damien W. Riggs, Shoshana Rosenberg, Heather Fraser, Nik Taylor, 2021-07-29 This book explores LGBTQTNB people's relationships with animals examining a complex menagerie of human animal relationships Edmund Spenser and Animal Life Rachel Stenner, Abigail Shinn, 2024-02-20 This book is the first extended critical study of the early modern poet Edmund Spenser from the perspective of animal studies With an

Nayar, 2014 This timely book examines the rise of posthumanism as both a material condition and a developing philosophical ethical project in the age of cloning gene engineering organ transplants and implants Nayar first maps the political and philosophical critiques of traditional humanism revealing its exclusionary and speciesist politics that position the human as a distinctive and dominant life form He then contextualizes the posthumanist vision which drawing upon biomedical engineering and techno scientific studies concludes that human consciousness is shaped by its co evolution with other life forms and our human form inescapably influenced by tools and technology Finally the book explores posthumanism's roots in disability studies animal studies and bioethics to underscore the constructed nature of normalcy in bodies and the singularity of species and life itself As this book powerfully demonstrates posthumanism marks a radical reassessment of the human as constituted by symbiosis assimilation difference and dependence upon and with other species Mapping the terrain of these far reaching debates *Posthumanism* will be an invaluable companion to students of cultural studies and modern and contemporary literature
