

Algebraic Expression

An **algebraic expression** is an expression that includes algebraic terms.

Algebraic terms are individual letters, groups of letters, or groups of letters and numbers separated by addition or subtraction. Individual numbers are known as **constant terms**.

Every **algebraic term** has a **coefficient** (the number) and a **variable** (the letter).

Example

- Positive 5 is a coefficient of the variable x
- Positive 1 is the coefficient of the variable y

$$\underbrace{5x}_{\text{Algebraic Term 1}} + \underbrace{y}_{\text{Algebraic Term 2}} - \underbrace{9}_{\text{Constant Term}}$$

Certificate Mathematics Form 1 , Certificate Mathematics Form 1 , Mathematics Education in East Africa Anjum Halai, Geoff Tennant, 2016-03-08 This Open Access book is a valuable resource for policymakers and practitioners as it brings insights mainly from developing countries where relatively less research activity takes place. It is also a valuable resource for courses in mathematics education in the teacher education colleges and departments of education in the sub-Saharan Africa region. In the increasingly global and technological world, mathematics is seen as a significant gatekeeper of opportunities for social and economic advancement and mobility. Hence, countries and development agencies in the broader sub-Saharan Africa region are looking towards increasing access to relevant and high quality secondary education as a lever towards economic development. Policy makers and other key decision makers in education look towards improvement in mathematics teaching and learning as a key focus in education reform. In the East Africa region, also, a number of initiatives have been taken at the national level in the respective countries to improve the quality of mathematics education. This book provides an in-depth comparative analysis of the developments and issues in mathematics education in Kenya, Tanzania, Rwanda, and Uganda and advances our understanding of the state of secondary mathematics education in East Africa.

Certificate Mathematics Form 3 , Iterative Algebra and Dynamic Modeling Kurt Kreith, G. Donald Chakerian, 1999-06-22 Iterative Algebra and Dynamic Modeling links together the use of technology: Excel spreadsheets, Stella modeling software, and modern mathematical techniques to explore the interaction of algebra at the pre-calculus level with computer and graphing calculator technology. This book was developed to teach modern applications of mathematics at an introductory level. It is based on the authors' well-received teacher training workshops using the materials.
