Evolution 2.0 Martin Brinkworth,Friedel Weinert,2011-10-07

These essays by leading philosophers and scientists focus on recent ideas at the forefront of modern Darwinism showcasing

and exploring the challenges they raise as well as open problems This interdisciplinary volume is unique in that it addresses the key notions of evolutionary theory in approaches to the mind in the philosophy of biology in the social sciences and humanities furthermore it considers recent challenges to and extensions of Neo Darwinism The essays demonstrate that Darwinism is an evolving paradigm with a sphere of influence far greater than even Darwin is likely to have imagined when he published On the Origin of Species in 1859

Cities Alive Michael W. Mehaffy, 2017-10-09 Cities are experiencing a renaissance today because we ve begun to understand how they really work and we ve begun to make them work better for people This book is a lively readable account of two revealing figures in the history of that renaissance the urban economist Jane Jacobs and the architect Christopher Alexander Their key insights have shaped several generations of scholars professionals and activists However as the book argues this renaissance is still immature and more must be done to achieve its promise especially in an age of rapid often sprawling urbanization The author is a noted scholar on both Jacobs and Alexander and a participant in the development of the New Urban Agenda a historic United Nations agreement emphasizing the pivotal role of cities and towns in meeting the challenges of the future As the book documents Jacobs and Alexander played key roles in formulating the conceptual insights behind the New Urban Agenda and they continue to offer us crucial implementation lessons for the years ahead This book is ideal for students professionals government officials activists and anyone who is interested in the future of cities The author Michael W Mehaffy Ph D is currently Senior Researcher at KTH Royal Institute of Technology in Stockholm and Director of the Future of Places Research Network He is a popular educator speaker and author with periodic appointments in seven graduate institutions in six countries and a consultant in sustainable urban development with an international practice This is his third book

The Last Elephants , 2019-04-09 Amazing photographs of elephants accompany narratives from researchers scientists and

conservationists celebrating elephants and calling for their preservation African savanna elephants among the most magnificent and beloved of our fellow mammals are an extraordinary social and intelligent species The Last Elephants an homage to these animals and a clarion call for their preservation is based upon a shocking finding savanna elephant populations across Africa are being decimated with two to three murdered every hour for their ivory Without action these elephants soon will vanish from our world They are a species in imminent danger of extinction and it is up to us to save them Featuring more than 250 full color photos of the breathtaking animals by some of the world s top wildlife photographers The Last Elephants was inspired by the devastating results of the continent wide Great Elephant Census of 2016 undertaken by Elephants without Borders in tandem with the world s most prominent conservation groups The book joins together the voices and vision of scientists lawmakers rangers conservationists and on the ground researchers to speak out against elephant killings to close loopholes in international law that allow the ivory trade to continue and to pay tribute to the thousands who work to protect the animals including African communities who have elected to preserve and protect their elephant neighbors Offering both profiles of preservation plans that work and hope for elephants future this is a must read for everyone concerned for the future of one of Earth s most captivating species **Signs of the Last Day** Hârûn

Yahya,2003 Expressions of the Last Days Jeff Porter,2014-05-19 Something seems to be pushing our world into a new era People sense that something monumental is about to take place The book of Revelation describes a time of great upheavals and terrible events that will rock and shake planet earth This writing is designed to provide insights into the nature of those last days and how to survive in the midst of them **The Last Book** John Williams,2007-08-27 There have been many attempts to explain life For the most part they are variants on a religious or mystical theme These provide a purpose to life but not the purpose of life A full rational explanation of our existence based on our rapidly accumulating scientific knowledge has eluded us until now The explanation of life which is offered in this book draws on three main components evolution genetics and psychology However something exists in our mind which stops us from seeing clearly what is already before us Once this block is removed we can view life objectively and see it as a special form of information which has arisen through evolution Information is identified as the unifying entity of the universe which is inherent in the spatial arrangement of matter This book relates these findings to our world and our lives It sets out in rational terms where we came from how we got here and finally reveals our destiny www.thelastbook.co.uk The Chronicles of Dr. Ann Bennet: The Last Day Of Normal Life Judith L. Mitz,2015-08-13 We find Dr Bennett standing at a window staring down the city parkway Dr Bennett is reminiscing about her early years growing up in the area she calls home The sights sounds and smells of the world she has known is about to end Dr Bennett has devoted decades of preparation for moving the best of what mankind has to offer to somewhere other than earth not just scientists like herself but musicians artisans and people from all walks of life that excel at what they do Dr Bennett was selected by the committee to design a way station underground moon base and space station

to begin the journeys for thousands of lifeforms Dr Bennett also designed the sky cities of earth that were mounted high above earth's surface to protect as many forms of life as possible to produce food and supplies for those who would live in space Since the 1950s a select group of trained scientists knew the Ice Age was approaching preparations began then
