minimalist music and Zazeela's ongoing engagement with the use of light in art. These themes include the importance of nature and its natural shapes and sounds, the importance of mathematics and organized tuning systems based on natural harmonics, enhanced attention spans, and increased sensitivity to differences within apparent sameness, extensions of time, and alterations of space. Essays by Terry Riley, John Schaefer, Henry Flynt, Christine Christner, Hennix Mitchell, Clark Kyle Gann, Ben Neill, and Robert Palmer are included. Young and Zazeela contribute to the book with original text materials that focus on continuous sound and light environments.

**School Executive**, 1941 *Remedies* Richard L. Hasen, 2010-01-01. Examples build student understanding step by step, moving from the basics to the more complex, and allowing students to apply the law to particular fact patterns. Allows students to study chapters in any order, demystifies the language of remedies using straightforward and student-friendly examples, charts, and illustrations. Shows students how to do the math related to issues such as computing compensatory damages, present value, and constructive trusts. Offers compatibility with all major remedies books, including those that approach remedies through public law and those that approach it through private law. Remains the only book in the field to provide both black letter law and examples and answers to build student knowledge. The level of complexity builds as examples continue in each chapter. Discusses major remedies cases: *Hadley v Baxendale*, *State Farm v Campbell*, *Sullivan v O'Connor*. Provides detailed coverage of the draft Restatement Third of Restitution and gives detailed analyses of remedies issues under Article 2 of the Uniform Commercial Code.
