

Anglo-Saxon Literature and Culture Study Guide

- The Anglo-Saxon period of history was also regarded as The Dark Ages, an age marked by intellectual and cultural darkness because of the cold and invasion in the English Isles.
- The Dark Ages had lasted from between 5th Century AD to 10th Century AD. This period of literature and culture began when the monks and missionaries in Rome invaded the English Isles in 430 AD and ended in 1066 AD when William of Normandy won the Battle of Hastings.
- Before the Norman conquest expanded their reach in the English Islands, the central religious system in place for several years during this period was called Paganism. The Celts and Anglo-Saxons that lived in the land before the Norman invasion were the first people to practice paganism.
- The religious practices of paganism before the 5th Century were not well-known, but what is known is that the Celts were polytheistic, and that the Normans brought writing and literature with them alongside Christianity.
- An aspect that existed before Christian influence is known as culture, and it is best known in the Hengid Code. The Hengid Code has different attributes to it, such as:

. The belief in avenging a murderer's death by killing their aggressor as an obligation

The Anglo-Saxon World Nicholas J. Higham, M. J. Ryan, 2013-06-25 Presents the Anglo-Saxon period of English history from the fifth century up to the late eleventh century, covering such events as the spread of Christianity, the invasions of the Vikings, the composition of *Beowulf*, and the Battle of Hastings.

SCM Studyguide Church History Stephen Spencer, 2013-08-30 An introduction to the study of the ways the church has evolved in its corporate life since its birth in the first century. Special attention is given to studying its changing relationship and interaction with the surrounding societies in which it has existed. The intended readership will be those training for ministry in English-speaking churches, so the studyguide will concentrate on those aspects of this subject of most relevance to this group. This means there will be greater attention to developments in the West than in the East, especially in later centuries, and to topics such as the nature of ministry, the sacraments, places of worship, authority in the church, and mission. These will be examined at each period of church history in each chapter to provide reference points of comparison throughout the book. Each chapter will also contain a specific case study presenting extracts of some key documents with notes, commentary, and questions for discussion to allow readers to develop skills in historical research. General discussion questions and reading lists will be provided at the end of each chapter. The final chapter will provide guidance for the study of the history of the student's own church and community.
