

# THE HITCHHIKER'S GUIDE TO THE GALAXY

by Douglas Adams

An epic adventure in radio and space, including some helpful advice on how to use the Universe on less than 20 American Dollars a day.

**Side One**  
In which the Earth is unexpectedly destroyed and the great truth is revealed.

**Side Two**  
A time being saved from certain death during the destruction of the Earth, Arthur Dent goes back a thousand years, becoming mankind's first ancestor in the process, in order to find out something about his own distant Viking ancestry.

**Side Three**  
After being improbably rescued from certain death in the vastness of space, Arthur Dent and his new companions learn that a certain death is not certain death.

**Side Four**  
It has been revealed to Arthur that the Earth has been built by the Magratheans and run by mice. He is told that the great secret problems he cannot solve (agriculture, certain death).
