MANUALS TECHNICAL PUBLICATIONS SERVICE SHEETS In 1945 after the war had ended BSA resumed production of their civilian line of motorcycles However they continued their pre war practice of publishing repair overhaul and technical information in the form of individual Service Sheets It should be noted that BSA never intended that these service sheets would be distributed to the general public they were dealer only publications Consequently these Service Sheets were the only publications available for the maintenance and repair of BSA models that were manufactured through the early 1960 s

INSTRUCTION MANUAL BSA published an Instruction Manual titled How to ride the BSA Dandy This publication was somewhat more detailed than most typical owner s manuals as it included basic overhaul information in addition to general maintenance and adjustments However when used in conjunction with the Service Sheets they are a reasonable substitute for a workshop manual

PARTS or SPARES MANUAL The parts manual includes exploded component diagrams which are extremely helpful in the rebuilding or restoration process
