Literacy in African American Communities Joyce L. Harris, Alan G. Kamhi, Karen E. Pollock, 2014-04-08 This volume explores the unique sociocultural contexts of literacy development values and practices in African American communities African Americans young and old are frequently the focus of public discourse about literacy In a society that values a rather sophisticated level of literacy they are among those who are most disadvantaged by low literacy achievement Literacy in African American Communities contributes a fresh perspective by revealing how social history and cultural values converge to influence African Americans literacy values and practices acknowledging that literacy issues pertaining to this group are as unique and complex as this group s collective history Existing literature on literacy in African American communities is typically segmented by age or academic discipline This fragmentation obscures the cyclical life span effects of this population s legacy of low literacy In contrast this book brings together in a single source volume personal historical developmental and cross disciplinary vantage points to look at both developmental and adult literacy from the perspectives of education linguistics psychology anthropology and communication sciences and disorders As a whole it provides important evidence that the negative cycle of low literacy can be broken by drawing on the literacy experiences found within African American communities

Handbook of Nature-Based Solutions to Mitigation and Adaptation to Climate Change Gustavo J. Nagy, Desalegn Yayeh Ayal, 2025-11-04 Over recent years nature based solutions NbS have gained popularity as tools to ameliorate the effects of climate change while slowing down the global warming process More specifically the potential of NbS has been explored in terms of meeting greenhouse gas emissions targets and fostering climate change adaptation NbS are methods that use and enhance nature to improve social and environmental challenges They involve several multifaceted actions that work sustainably to restore and protect the natural environment while helping people Therefore these solutions are useful in climate change adaptation and mitigation There are 3 main areas which NbS may target namely reducing exposure reducing sensitivity and supporting adaptive capacity Reducing exposure refers to protecting areas from existing climate change effects There is thus a perceived need to document and promote experiences related to NbS and to apply these in different contexts It is against this background that the Handbook of Nature Based Solutions to Mitigation and Adaptation to Climate Change is being produced The publication will showcase experiences related to NbS from around the world In particular it will gather examples of projects studies and the latest thinking on NbS which can serve the purpose of inspiring and fostering further works in this key area Thanks to its scope and thematic diversity the book will be of special interest to representatives from government organisations researchers and students from a wide range of natural and social

sciences courses It will also provide useful information to practitioners and representatives from non governmental organisations
