Homeschooling: The Primary Years Shirley Erwee, 2015-07-13 An invaluable guide for families embarking on the journey of educating their primary school age children at home One of the biggest challenges for homeschooling parents is to break away from the model of education they received in school and to re educate themselves about Education as the conventional classroom methodology is not the model of pedagogy teaching that works best in the homeschool scenario This book offers tried and tested alternatives that will enrich and facilitate learning rather than hinder the process of educating young minds Having been part of the first generation of South African homeschoolers the author shares her knowledge plus tips and advice she has learnt along the way in order to help others make good choices and avoid common pitfalls and costly mistakes **It Takes Two** Ross Haden, 2014-04-04 FunDza celebrates young writers Between June and December 2013 five of South Africa's best authors teamed up with five talented young writers to bring you this anthology of fast paced exciting short stories From romance and heartache to mystery and crime these stories have something thrilling for every reader *FROM MASTI TO MAHADEVA (AN ANTHOLOGY OF KANNADA SHORT STORIES IN ENGLISH)* S. N. Vikram Raj Urs, 2014-01-01 I have planned and designed this representative Anthology of Kannada short Stories in English Fifteen stories My main objective is to offer the best short stories in English The seeds of Kannada short story as a literary form can be traced back to Katha Sarasttisagara Panchantantra Jataka tales and great oral folk legends and wonderful tales Some of the oral and written stories were carried to the West mostly by traders wanderers monks and cultural ambassadors They also carried with them the two greatest epics like Ramayana and Mahabharata Vedas and Upanishads The travellers brought back the great stories epics of the West like Illiad Odyssey and Biblical stories With the invention of printing press in Germany in 16th century it became possible to reach out to countries far and wide through the medium of print The short story as a genre developed steadily over the centuries and it lost its amorphous body and acquired a well defined order arrangement and form **GK**

STORY OF HARRY SINGH & SOPHIE KAUR Madan Das, 2014-06-18 A very engrossing tale set during the British era It is a fast moving narrative with humour and anecdotes of the Indian subcontinent and the British ruling class The story revolves around an innocent heist carried out by a group of simple Indian soldiers to save their honour and in so doing a real life hero emerges who leads an attack successfully during World War II and puts an entire beach in Indonesia in the laps of his English masters After the war he sweeps an heiress who is a surviving passenger of the ill fated HMS Titanic off her feet and into his arms The misdemeanour enacted by the soldiers remains ensconced in secrecy for a decade and half However due to a string of circumstances the perpetrators are cajoled into revealing the misdeed during a drinking binge in a grand hotel setting in New Delhi ten years after India's independence in a chance encounter with their erstwhile pre independence British officers Since the mystery is revealed only in the last few pages of the book the reader remains rivetted to the novel and is kept spellbound through out

Stories of the Liberation Struggles in South Africa Prof. Thabo Israel Pudi, 2014-12-12 The Stories of the Liberation Struggles in South Africa Mpumalanga Province Book II is a continuation of the Stories of the Liberation struggle stories from Book I as told by the people of South Africa about their experiences and contributions to the ultimate victory over oppression domination and apartheid Many books and documentaries and even other forms of media when discussing the liberation struggles in South Africa have focused on stories or experiences as told by well known individuals This to some extent has created an impression that the struggle was fought by known individuals and leaders and it is only the known individuals and the leadership that have experienced the wrath of the police the army or the might of the South African regime In actual fact the truth is that the leadership was there to fuel and to organize the struggle and the masses Out of spontaneity and the resistance to oppression the struggle was automatically born In this book and Part II the contributors tell of stories about the struggle that they witnessed or have affected them directly Apartheid and oppression was in actual fact against all nonwhite people and not only against leaders The foot soldiers or people on the ground who waged the real battles when they destroyed targets and defied the state of emergencies and survive teargas and gunshots are the ones that will tell stories that even the so called leaders will have to hear and learn from them Some of the stories the stories of bravery the stories of sacrifice the stories of escape and the stories of resistance against the forces that were intend on undermining the human dignity of the black masses will be heard for the first time by some of the leadership that are still alive Suffice it to say that the reason is that the media reporting has been biased against these individuals who may have been perceived to be nobodies As is evident in this book they may be nobodies but the stories that they tell are worth the while It is indeed true

that every story has more than one side the side told by the leadership the side told by the media which in many instances are driven by sensation or allegiance to the leadership and the side told by the others I marvel at the words of the wise that there are three sides to each story side of the story the other man side of the story and the true version of the story This book is not about to judge as to which side of the story is true or appropriate but to make available a platform from which even the unknown will have to tell their own stories about their suffering and the liberation struggles in South Africa Is it not better to read the stories from those who have experience of them rather than those who heard about them **South African**

National Bibliography ,1994 "The" Athenaeum ,1888 **Learning and Literacy over Time** Julian

Sefton-Green,Jennifer Rowsell,2014-09-25 Learning and Literacy over Time addresses two gaps in literacy research studies offering longitudinal perspectives on learners and the trajectory of their learning lives inside and outside of school and studies revealing how past experiences with literacy and learning inform future experiences and practices It does so by bringing together researchers who revisited subjects of their initial research conducted over the past 10 20 years with people whom they encountered through ethnographic or classroom based investigations and are the subjects of previous published accounts The case studies drawn from countries in three continents and covering a range of social worlds offer an original and at times quite an emotive interpretation of the effects of long term social change in the UK the US Australia and Canada the claims and aspirations made by and for certain kinds of educational interventions how research subjects reflect on and learn from the processes of being co opted into classroom research as well as how they make sense of school experiences some of the widespread changes in literacy practices as a result of our move into the digital era and above all how academic research can learn from these life stories raising a number of challenges about methodology and our claims to know the people we research In many cases the process of revisiting led to important reconceptualizations of the earlier work and a sense of seeing with new eyes what was missed in the past The reflections on methodology and research processes will interest postgraduate and academic researchers The studies of change and of long term effects are widely relevant to teacher educators and scholars in language and literacy education educational anthropology life history research media and cultural studies and sociology Dragons & Butterflies Shani Krebs,2014-04-25 Shani Krebs didn t fall in with a bad crowd he was the bad crowd Born to Hungarian refugees in Johannesburg South Africa Shani had a tough childhood During his national service he started dabbling in drugs and it wasn t long before he was supplying the Johannesburg party scene with marijuana LSD mandrax and cocaine It was a wild life filled with girlfriends narrow escapes and drug binges His closest friend was his pistol Then in 1994 at the birth of South Africa s democracy Shani flew to Thailand where he was arrested for heroin trafficking and after a trial was sentenced to death He was 34 Shani s sentence was commuted to 100 years and thus begun the greatest challenge of his life The first hurdle was to survive in one of the toughest prisons imaginable the random violence the appalling diet and the filth and diseases Shani not only survived he eventually rose to command significant

respect within the prison system The second was to stay off drugs after years of addiction The third was nurturing a long neglected spiritual side which he found through his art and exploring his Jewish faith But what gave him most focus was in collaboration with his sister Joan trying to find some way either to be transferred to a South African prison or have his sentence shortened He failed in the former but after serving 18 years the longest serving Westerner in a Thai prison he stepped off a plane at OR Tambo in 2012 South Africa was a changed country and Shani was a changed man After adjusting to life on the outside he is now a talented artist and public speaker rallying against drug abuse in schools Dragons Butterflies tells the remarkable story of a man who reached absolute rock bottom but had the fortitude to rise up again Educational Leadership for Transformation and Social Justice John Ambrosio,2016-11-03 Educational Leadership for Transformation and Social Justice examines the relationship between the lived experiences of educational leaders at the University of the Free State in South Africa and how they think about and practice leadership for transformation and social justice Based on biographical information public speeches published writings and in depth semi structured face to face interviews the book presents and analyses seven chapter length narratives of these leaders This book explores how some leaders at the University of the Free State from the vantage point of various racialized and gendered identities and generational experiences conceptualize and enact leadership for transformation and social justice Ambrosio argues that there are certain values beliefs concepts principles and ways of thinking that cut across their experiences and demographic differences The narratives are presented in the leaders own words and describe how their lived experiences shaped their values and identities and inform how they think about and practice leadership for transformation and social justice One convergence that emerged among these leaders is that their leadership is an extension of who they are of their core values identities and ethical commitments Another is that they are motivated by visions of change that go beyond the University by bigger dreams that infuse their work with meaning and purpose With its in depth analysis of the narratives this book will provide educational leaders who have an orientation towards transformation and social justice with insights that enable them to think differently about how to make the policies programs and institutional culture of their own universities more equitable and just It will appeal to academics researchers and postgraduate students in the fields of education educational justice higher education educational leadership and change social justice and racial justice **A History of the Present** Ashwin Desai,Goolam Vahed,2019-09-12 Through the long 20th century Indian South Africans lived under the whip of settler colonialism and white minority rule which saw the passing of a slew of legislation that circumscribed their freedom of movement threatened repatriation and denied them citizenship all the while herding them into racially segregated townships This volume chronicles the broad outlines of this history Taking the story into the present it provides an analysis of how Indian South Africans have responded to changes wrought by the remarkable collapse of apartheid and the holding of the first democratic elections in 1994 Drawing upon archival records in depth interviews and ethnography this study examines

the ways in which Indian South Africans define themselves and the world around them and how they are defined by others It tells of the incredible journey of Indian South Africans many of whom are fourth and fifth generation towards being recognized as citizens in the land of their birth and how while often attracted by and seeking to explore their roots in India they continue to dig deeper roots in African soil
