The New Warfare

J. Martin Rochester, 2016-02-19 This book looks at the evolving relationship between war and international law examining the complex practical and legal dilemmas posed by the changing nature of war in the contemporary world whether the traditional rules governing the onset and conduct of hostilities apply anymore and how they might be adapted to new realities War always messy has become even messier today with the blurring of interstate intrastate and extrastate violence How can the United States and other countries be expected to fight honourably and observe the existing norms when they often are up against an adversary who recognizes no such obligations Indeed how do we even know whether an armed conflict is underway when modern wars tend to lack neat beginnings and endings and seem geographically indeterminate as well What is the legality of anticipatory self defense humanitarian intervention targeted killings drones detention of captured prisoners without POW status and other controversial practices These questions are explored through a review of the United Nations Charter Geneva Conventions and other regimes and how they have operated in recent conflicts Through a series of case studies including the U S war on terror and the wars in Afghanistan Iraq Gaza Kosovo and Congo the author illustrates the challenges we face today in the ongoing effort to reduce war and when it occurs to make it more humane

Adorno, Foucault and the Critique of the West Deborah Cook, 2018-11-27 The alliance of critical theory between Frankfurt and Paris Adorno Foucault and the Critique of the West argues that critical theory continues to offer valuable resources for critique and contestation during this turbulent period To assess these resources it examines the work of two of the twentieth century s more prominent social theorists Theodor W Adorno and Michel Foucault Although Adorno was situated squarely in the Marxist tradition that Foucault would occasionally challenge Deborah Cook demonstrates that their critiques of our current predicament are complementary in important respects Among other things these critiques converge in their focus on the historical conditions economic in Adorno and political in Foucault that gave rise to the racist and authoritarian tendencies that continue to blight the West Cook also shows that when Adorno and Foucault plumb the economic and political forces that have shaped our identities they offer remarkably similar answers to the perennial question What is to be done **Reference and**

The Nature of Data Jenny Goldstein, Eric Nost, 2022-10 When we look at some of the most pressing issues in environmental politics today it is hard to avoid data technologies Big data artificial intelligence and data dashboards all promise revolutionary advances in the speed and scale at which governments corporations conservationists and even individuals can respond to environmental challenges By bringing together scholars from geography anthropology science and technology studies and ecology *The Nature of Data* explores how the digital realm is a significant site in which environmental politics are waged This collection as a whole makes the argument that we cannot fully understand the current conjuncture in critical global environmental politics without understanding the role of data platforms devices standards and institutions In particular *The Nature of Data* addresses the contested practices of making and maintaining data infrastructure the imaginaries produced by data infrastructures the relations between state and civil society that data infrastructure reworks and the conditions under which technology can further socio ecological justice instead of re entrenching state and capitalist power This innovative volume presents some of the first research in this new but rapidly growing subfield that addresses the role of data infrastructures in critical environmental politics

Big Data and Learning Analytics in Higher Education Ben Kei Daniel, 2016-08-27 This book focuses on the uses of big data in the context of higher education The book describes a wide range of administrative and operational data gathering processes aimed at assessing institutional performance and progress in order to predict future performance and identifies potential issues related to academic programming research teaching and learning Big data refers to data which is fundamentally too big and complex and moves too fast for the processing capacity of conventional database systems The value of big data is the ability to identify useful data and turn it into useable information by identifying patterns and deviations from patterns

Ori-Oke Spirituality and Social Change in Africa Yaovi, Soede Nathanael, Nwosu, Patrick U., 2018-09-17 The dynamic nature of Christianity has necessitated its movement from the cathedral to the mountain top This has occasioned a proliferation of Prayer Mountains throughout Africa In Yorubaland of southwestern Nigeria Prayer Mountain is known as Ori Oke Like many communities in Africa the Yoruba are confronted with fundamental challenges in life for which people do not rest until they find solutions Within the praxis of Nigerian Christian lexicon Ori Oke is synonymous with the enactment of a sacred space on a mountain top characterised by various prayer regimes rituals exorcism and religious practices aimed at eliciting the help of the divine to alleviate the existential challenges

of devotees This book explores the resacralisation of space on the mountains highlighting how humans and the divine interact in Yorubaland It brings into conversation 35 empirically rich scholarly essays on the role of Ori Oke to those seeking divine intervention in their lives Today Ori Oke have become centres of pilgrimage as a result of the lived experiences of devotees creating unique religious value quite distinct from the aesthetic value of these mountain tops The spirituality of Ori Oke is anchored on the absolute belief in God and the infusion of traditional African worldview sensibilities in religious rites and worship Ori Oke spirituality employs resources of Christian tradition introduced by the formal agents of Christianity synthesised with traditional culture to develop a life based on the precepts of an African Christianity The book is an intellectual discourse on Ori Oke spirituality reflecting its contemporary relevance in a context of religious innovation and competition
