Connecting Disciplinary Literacy and Digital Storytelling in K-12 Education Haas, Leslie, Tussey, Jill, 2021-01-15 The idea of storytelling goes beyond the borders of language culture or traditional education and has

historically been a tie that bonds families communities and nations Digital storytelling offers opportunities for authentic academic and non academic literacy learning across a multitude of genres It is easily accessible to most members of society and has the potential to transform the boundaries of traditional education As concepts around traditional literacy education evolve and become more culturally and linguistically relevant and responsive the connections between digital storytelling and disciplinary literacy warrant considered exploration Connecting Disciplinary Literacy and Digital Storytelling in K 12 Education develops a conceptual framework around pedagogical connections to digital storytelling within K 12 disciplinary literacy practices This essential reference book supports student success through the integration of digital storytelling across content areas and grade levels Covering topics that include immersive storytelling multiliteracies social justice and pedagogical storytelling it is intended for stakeholders interested in innovative K 12 disciplinary literacy skill development research and practices including but not limited to curriculum directors education faculty educational researchers instructional facilitators literacy professionals teachers pre service teachers professional development coordinators teacher preparation programs and students Understanding Sustainability with Pedagogical Practice Osvaldo Muñiz Solari, Gabriele Schröfer, 2023-07-30 This book shares with an international audience of teachers scholars and policymakers the experience of pedagogical practices to facilitate sustainability in the world Sustainability is seen here as a journey toward the end state of sustainable development Therefore the authors contribute different roads to engage teachers and students with pedagogical discourse Overall the book demonstrates the value of powerful knowledge through action oriented learning based on a bottom up process Consequently pedagogical practices are understood as the instructional approaches based on a social constructivist model in which active learning is performed with student to student engagement Secondary teachers in social sciences and university professors in geography find the study to be a valuable source of stimulation for incorporating new ideas and resolving common problems in their learning and teaching environments Education policymakers around the world also benefit from the only publication that presents international perspectives on geographical knowledge related to sustainability The contributing authors are experienced scientists in the field of geography education who are giving special attention to pedagogical practices that promote new directions toward sustainable thinking This book is the first outcome of an international collaboration officially established in 2023 between the Department of Geography and Environmental Studies at Texas State University and the Department of Geography at the University of Bayreuth *The Rise and Fall of Civic Education* Michael Learn, 2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic

education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies The Natural World as a Resource for Learning and Development: From Schoolyards to Wilderness Ming
