Economics without Borders Richard Blundell,Estelle Cantillon,Laszlo Matyas,Barbara Chizzolini,Marc Ivaldi,Wolfgang Leininger,Ramon Marimon,Frode Steen,2017-04-27 This book uses surveys to bridge the gap between studies into European economics and policymaking in Europe It is also available as open access *ECKM2014-Proceedings of the 15th European conference on Knowledge Management* Carla Vivas,2014-10-01 The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain This provides an illustration that in order to create new or modified knowledge practices strengthen customer relationships and thus positively influence customer satisfaction organizations must be flexible in configuring combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services Thus unlearning forgetting becomes a critical means for organizational success The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues This conference aims to further that dialogue by attracting leading edge

work that leverages the ECKM community's in depth understanding of learning and unlearning to better understand knowledge management. Our aim is to stimulate breakthrough research streams linking learning, unlearning and knowledge management. How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices and processes? Building upon existing work on knowledge management, KM and organizational learning, the conference will promote interdisciplinary approaches from computer science and information systems, business management and organization science as well as cognitive science. Emphasis will be put on systematic learning from experience, KM tools and KM success factors. A special interest belongs to knowledge management initiatives which are lightweight i.e. do not place considerable additional burden on users and KM experts, allow an incremental adoption i.e. do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics. Continuing the success of the ECKM conference series since 2000, the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations.

Perception of visual advertising in different media: from attention to distraction, persuasion, preference and memory Jaana Simola, Jukka Hyönä, Jarmo Kuisma, 2015-02-24 This Research Topic aims to showcase the state of the art in visual advertising research Although visual processes are a central component of consumer behavior they have been largely neglected in models explaining consumer perception of advertising Rather than being the mere input into the cognitive or affective systems the visual processes both voluntarily and involuntarily affect the amount and quality of information that is passed into further mental processing Moreover advertisements provide a well designed rich and stimulating environment to study visual processes in real life conditions Consumers encounter thousands of advertisement messages per day Previous

research on visual perception of advertising mostly considers print advertising. However, advertising messages increasingly appear in a variety of formats and in different media. Part of these messages are still conveyed through traditional media such as newspapers, magazines, television, as well as outdoor and supermarket advertising. In addition, the amount and diversity of visual marketing stimuli is rapidly growing in terms of different advertising formats appearing in online and social media, smartphones, and tablets. This challenges the marketing professionals and academics to better understand the impact of marketing on consumers. At the same time, the technical development of the research methods allows better opportunities to investigate advertising perception in different environments. Traditionally, papers investigating the psychological processes underlying advertising perception are published in journals widespread across different disciplines such as marketing, applied psychology, and human computer interaction journals. With this Research Topic, we aim to create a forum in which experts in different fields define the state of the art and future directions of the research on the visual aspects of marketing. We include reviews and original research papers involving both empirical and theoretical studies on visual perception of advertising across different media.

Sustainable Management Petra Molthan-Hill, 2023-08-22 Sustainable Management A Complete Guide for Faculty and Students is both a textbook for students as well as a teaching guide for educators. With a full introduction to sustainable management, the book covers a wide range of subject areas relevant to business and management students. It enables faculty to incorporate sustainability and climate solutions into their modules and is also very accessible for self-directed studies. This third edition features fully updated chapters on how to integrate the Sustainable Development Goals into key disciplines in business, including economics, operations, marketing, HR strategy, and financial reporting. We also cover topics such as corporate peacemaking, greenhouse gas management, and crowdsourcing. The book offers a new chapter on how to integrate climate solutions and climate change mitigation education into business and management schools, as well as many ideas in each chapter on how to do so. The chapter on employability and sustainability was fully redesigned, adding new resources which can be used in any educational establishment. Educators in business schools and trainers in organisations will find short, ready-made seminars, workshops, and a wide array of learning resources supported by a companion website.

Federal Register, 2013-10 Dancing With The Dragon Mona Chung, Bruno Mascitelli, 2015-08-06 This book looks at a number of contemporary issues in relation to the current role China plays in trade investments, especially outward investments, a fairly new phenomenon in Australia, Africa, and Europe, three major strategic destinations for China. Through the Eurozone crisis, Chinese investments, and migration into Europe, the authors paint a new picture of the world with China, the dragon, dancing in the centre of the stage with rotating dancing partners. They show a new perspective on the China-US relationship, especially through the case of Huawei, the new Chinese telecommunication giant who is consistently challenging the position of CISCO commercially and now politically. This book adds another tool to the tool box of those who are aiming to continue dealing, trading, and working with China and the Chinese.

Sport Development in the United States

Peter Smolianov,Dwight Zakus,Joseph Gallo,2014-09-15 The development of both elite high performance sport and mass participation grassroots level sport are central concerns for governments and sports governing bodies This important new study is the first to closely examine the challenges and opportunities for sports development in the United States a global sporting giant with a unique market driven sporting landscape Presenting an innovative model of integrated sports development the book explores the inter relationship between elite and mass sport across history drawing on comparative international examples from Australia to the former USSR and Eastern bloc countries At the heart of the book is an in depth empirical study of three traditional and emerging sports in the US tennis soccer and rugby that offer important lessons on the development of elite sport methods for increasing participation and the establishment of new sports in new markets No other book has attempted to model sports development in the United States in such depth before Therefore this should be essential reading for all students researchers administrators or policy makers with an interest in sports development sports management sports policy or comparative international sport studies
