A Diversity of Pathways Through Science Education Yann Shiou Ong,Timothy Ter Ming Tan,Yew-Jin Lee,2024-06-18 This book presents the work of academics who contributed their work at the International Science Education Conference ISEC 2021 in alignment with the conference theme 20 20 Vision for Science Education Research Collectively the

chapters aim to evoke intellectual dialogues on current and future trends in science education. It features chapters that are grouped thematically into three sections: Questions and Questioning in Science, STEM education, Developing Science Teaching and Assessment, and History, Philosophy, and Sociology of Science. Engineering and Informal Learning Through the various sections, the book presents empirical studies in science and engineering classrooms or laboratories, puts forward a framework for problem-based learning, provides an account of a prominent scientist's efforts in promoting practical science through analysis of historical documents, and uncovers trends in informal science learning space research through a review of literature. Each section is introduced by a commentary with further insights and thought-provoking questions on ideas raised in the chapters. The book also includes a Notes to Our Future Colleagues section in each chapter which presents readers with a collective vision for the state of science education research in the year 2050.

Investigating Ramps and Pathways With Young Children (Ages 3-8) Beth Dykstra Van Meeteren, 2022. Children are intrigued by moving objects even more so when they can engineer the movement. This volume in the STEM for Our Youngest Learners Series uses ramps and pathways as a context to provide children ages 3-8 opportunities to engage in STEM every day. Ramps and Pathways is a meaningful and fun way for children to develop engineering habits of mind as they explore concepts in force and motion, properties of objects, and how those properties affect their movement. In the process, children develop spatial thinking that is essential for future careers in STEM. The text also offers guidance for arranging the physical, intellectual, social, emotional, and promotional environments of a classroom to embrace the natural integration of literacy learning. Each volume in this series includes guidance for forming partnerships with families and administrators that support STEM learning, vignettes showing educators and children engaging in inquiry, learning tips for selecting materials, modifications, and accommodations for diverse learners, ways to establish adult learning communities that support professional development, and more.

Book Features: Alignment with both the Head Start Early Learning Outcomes Framework (ELOF) and the NGSS Science and Engineering Practices with specific descriptions of how those science and engineering practices in Ramps and Pathways look and feel in Pre-K-2 classrooms; Examples of how to integrate literacy learning in a meaningful way; Descriptions of how the open-ended nature of ramps and pathways aligns with the Universal Design for Learning Framework (UDL) Guidance to help teachers anticipate and plan for all children to become purposeful, motivated, resourceful, knowledgeable, strategic, and goal-directed about learning; Examples of how to stage, introduce, and support children's designs to develop engineering habits of mind, systems thinking, optimism, creativity, communication, collaboration, attention to ethical considerations; A meaningful and healthy context to grow children's executive function skills (EFs) including inhibitory control, working memory, and cognitive flexibility.
