Close Encounters of the Invasive Kind Sarah Seymore, 2013 Before the breakthrough of postcolonial studies British science fiction authors already saw the opportunity to discuss political and ethical issues of imperialism by projecting human history and behavior onto the alien Other In this thesis the case studies of 15 novels of alien encounter science fiction illuminate the treatment of colonial and postcolonial concepts such as colonialism neo colonialism Empire paternalism hybridity mimicry and science and technology as a means of conquest and resistance The analysis also shows that the Empire is still a vital background for British science fiction Thesis Series Anglistik Amerikanistik English American Studies Vol 35

Aliens in America Jodi Dean, 1998 Discusses the social and political implications of widespread belief in unidentified flying objects extraterrestrials and government cover ups and considers what they reveal in a culture of mass media and conflicting evidence

Filmographies are given for film and television performers **The Occult Imagination in Britain, 1875-1947** Christine Ferguson, Andrew Radford, 2017-12-15 Between 1875 and 1947 a period bookended respectively by the founding of the Theosophical Society and the death of notorious occultist celebrity Aleister Crowley Britain experienced an unparalleled efflorescence of engagement with unusual occult schema and supernatural phenomena such as astral travel ritual magic and reincarnationism Reflecting the signal array of responses by authors artists actors impresarios and popular entertainers to questions of esoteric spirituality and belief this interdisciplinary collection demonstrates the enormous interest in the occult during a time typically associated with the rise of secularization and scientific innovation The contributors describe how the occult realm functions as a turbulent conceptual and affective space shifting between poles of faith and doubt the sacrosanct and the profane the endemic and the exotic the forensic and the fetishistic Here occultism emerges as a practice and epistemology that decisively shapes the literary enterprises of writers such as Dion Fortune and Arthur Machen artists such as Pamela Colman Smith and revivalists such as Rolf Gardiner **Fantasy Newsletter**, 1983 **Masculinity in**

Contemporary Science Fiction by Men Sara Martín, 2025-05-30 Masculinity in Contemporary Science Fiction by Men No Plans for the Future is the first comprehensive study of the self representation of men in SF novels published in the twenty first century by male authors Exploring a broad selection of writers and works the fourteen chapters present a panoramic

overview of men's contributions to current SF and explore their slow but noticeable progress in the representation of gender. The impact of feminism and gender studies and the demands of readers have profoundly transformed men's SF which now presents far more caring and vulnerable male characters. The old stereotypes are being replaced by a collective reflection on how men and masculinity are changing though the lack of a common agenda results in novels that while exciting and often challenging sometimes miss the chance to imagine a better anti-patriarchal pro-feminist future for men and for all human beings. The authors analysed include Robert Charles Wilson, Geoff Ryman, Samuel R. Delany, Richard K. Morgan, John Scalzi, Iain M. Banks, Ernest Cline, James S. A. Corey, Colson Whitehead, Andy Weir, Daniel H. Wilson, Ian McDonald, Yoon Ha Lee, Tade Thompson, Neal Stephenson and Kim Stanley Robinson.

Posthumanism and the Graphic Novel in Latin America

Edward King, Joanna Page, 2017-07-03 Latin America is experiencing a boom in graphic novels that are highly innovative in their conceptual play and their reworking of the medium. Inventive artwork and sophisticated scripts have combined to satisfy the demand of a growing readership both at home and abroad. *Posthumanism and the Graphic Novel in Latin America* which is the first book-length study of the topic argues that the graphic novel is emerging in Latin America as a uniquely powerful force to explore the nature of twenty-first century subjectivity. The authors place particular emphasis on the ways in which humans are bound to their non-human environment and these ideas are productively drawn out in relation to posthuman thought and experience. The book draws together a range of recent graphic novels from Argentina, Brazil, Chile, Mexico and Uruguay many of which experiment with questions of transmediality, the representation of urban space, modes of perception and cognition and a new form of ethics for a posthuman world. Praise for *Posthumanism and the Graphic Novel in Latin America* well referenced and well considered the analyses it brings are overall well executed and insightful. *Image and Narrative* Jan 2018 vol 18 no 4.

The Routledge Companion to Queer Literary Studies Melissa E. Sanchez, 2025-02-28 Bringing together twenty-seven established and emerging scholars *The Routledge Companion to Queer Literary Studies* discusses the historical development, current state, future directions and political stakes of queer literary studies as a field of research and pedagogy. This innovative collection offers new frameworks for studying and teaching literature, art, film, music, theory and philosophy from the medieval period to the twenty-first century. The contributors consider the structural implication of gender and sexuality with race, class, gender, ability, colonialism, capital, empire, ability and relationships between human and non-human life and matter. *The Routledge Companion to Queer Literary Studies* is a vital resource for scholars, students and teachers working across a range of historical periods, critical methods and objects of study. It offers a multitude of approaches to queer literary studies revealing the field to be as vital and as contested as ever.

Framing Fan Fiction

Kristina Busse, 2017-10 Gathering some of Kristina Busse's essential essays on fan fiction together with new work *Framing Fan Fiction* argues that understanding media fandom requires combining literary theory with cultural studies because fan artifacts are both artistic works and cultural documents. Drawing examples from a multitude of fan communities and texts

Busse frames fan fiction in three key ways as individual and collective erotic engagement as a shared interpretive practice in which tropes constitute shared creative markers and illustrate the complexity of fan creations and as a point of contention around which community conflicts over ethics play out Moving between close readings of individual texts and fannish tropes on the one hand and the highly intertextual embeddedness of these communal creations on the other the book demonstrates that fan fiction is simultaneously a literary and a social practice Framing Fan Fiction deploys personal history and the interpretations of specific stories to contextualize fan fiction culture and its particular forms of intertextuality and performativity In doing so it highlights the way fans use fan fiction s reimagining of the source material to explore issues of identities and peformativities gender and sexualities within a community of like minded people In contrast to the celebration of originality in many other areas of artistic endeavor fan fiction celebrates repetition especially the collective creation and circulation of tropes An essential resource for scholars Framing Fan Fiction is also an ideal starting point for those new to the study of fan fiction and its communities of writers
