important and memorable events of the United States westward push across the frontier came with the discovery of gold in the lands that became California in January 1848 Located thousands of miles away from the country s power centers on the East Coast at the time the announcement came a month before the Mexican American War had ended but it brought an influx of an estimated 90 000 Forty Niners to the region in 1849 hailing from other parts of America and even as far away as Asia All told an estimated 300 000 people would come to California over the next few years as men dangerously trekked thousands of miles in hopes of making a fortune and in a span of months San Francisco s population exploded making it one of the first mining boomtowns to truly spring up in the West This was a pattern that would repeat itself across the West anytime a mineral discovery was made from the Southwest and Tombstone to the Dakotas and Deadwood Of course it was all made possible by the collective memory of the original California gold rush when gold was discovered in the Yukon and Alaska almost 50 years after the rush in California it drew tens of thousands of prospectors despite the unforgiving climate Mineral resources had gone a long way in the United States acquiring Alaska a generation earlier but the lack of transportation kept all but the most dedicated from venturing into the Yukon and Alaska until the announcement of the gold rush For a few years the attention turned to the Northwest and thanks to vivid descriptions by writers like Jack London the nation became intrigued with the idea of miners toughing out the winter conditions to find hidden gold Of course despite the mythology and the romantic portrayals that helped make the Klondike Gold Rush most of the individuals who came to make a fortune struck out instead The gold rush was a boon to business interests which ensured important infrastructure developments like the railroad and the construction of westward paths but ultimately it also meant that big business reaped most of the profits associated with mining the gold While the miners are often remembered for panning gold out of mountain streams it required advanced mining technology for most to make a fortune Nevertheless the Klondike Gold Rush and other gold rushes were emblematic of the American Dream and the notion that Americans could obtain untold fortunes regardless of their previous social status As historian H W Brands put it The old American Dream was the dream of the Puritans of Benjamin Franklin s Poor Richard of men and women content to accumulate their modest fortunes a little at a time year by year by year The new dream was the dream of instant wealth won in a twinkling by audacity and good luck While the gold rush may not have made every miner rich the events still continue to influence the country s collective mentality

The Klondike Fever: The Life And Death Of The Last

Great Gold Rush Pierre Berton, 2015-11-06 Absolutely first rate The New Yorker This thrilling story is at once first rate history and first rate entertainment Incredible events occurred in North America after a decrepit steamboat docked at Seattle in 1897 containing two tons of pure gold So frenzied was the clash for gold and so scant was information about conditions in the Klondike that the rush for riches became a kind of fabulous madness The entire tale of which Pierre Berton's account is the definitive telling has an epic ring legends were lived and fortunes were won as much because of its splendid folly as because of its color and motion The definitive account of an affair as wildly improbable as any in North American history Saturday Review A lively saga of the great gold rush It is the most complete and most authentic on the subject in English The New York Times Book Review

next few years as men dangerously trekked thousands of miles in hopes of making a fortune and in a span of months San Francisco's population exploded making it one of the first mining boomtowns to truly spring up in the West. This was a pattern that would repeat itself across the West anytime a mineral discovery was made from the Southwest and Tombstone to the Dakotas and Deadwood. Of course it was all made possible by the collective memory of the original California gold rush when gold was discovered in the Yukon and Alaska almost 50 years after the rush in California. It drew tens of thousands of prospectors despite the unforgiving climate. Mineral resources had gone a long way in the United States acquiring Alaska a generation earlier but the lack of transportation kept all but the most dedicated from venturing into the Yukon and Alaska until the announcement of the gold rush. For a few years the attention turned to the Northwest and thanks to vivid descriptions by writers like Jack London the nation became intrigued with the idea of miners toughing out the winter conditions to find hidden gold. Of course despite the mythology and the romantic portrayals that helped make the Klondike Gold Rush most of the individuals who came to make a fortune struck out instead. The gold rush was a boon to business interests which ensured important infrastructure developments like the railroad and the construction of westward paths but ultimately it also meant that big business reaped most of the profits associated with mining the gold. While the miners are often remembered for panning gold out of mountain streams it required advanced mining technology for most to make a fortune. Nevertheless the Klondike Gold Rush and other gold rushes were emblematic of the American Dream and the notion that Americans could obtain untold fortunes regardless of their previous social status. As historian H. W. Brands put it: "The old American Dream was the dream of the Puritans of Benjamin Franklin's Poor Richard of men and women content to accumulate their modest fortunes a little at a time year by year by year. The new dream was the dream of instant wealth won in a twinkling by audacity and good luck. While the gold rush may not have made every miner rich the events still continue to influence the country's collective mentality." **The Mining Journal, Railway and Commercial Gazette**, 1898
