Thomas Hardy Tim Armstrong, 2018-10-08 In *Thomas Hardy Selected Poems* Tim Armstrong brings together over 180 poems in the first comprehensively annotated selection of Hardys poetry Unlike most previous selections this edition preserves the shape of the poets career by presenting the poems in the order in which they appeared in the *Collected Poems* of 1930 rather than re ordering them thematically Head notes to each poem give the reader information about its composition publication sources and metrical scheme on the page notes list significant variants in Hardys manuscripts point out literary and other allusions and give explanatory glosses An appendix contains a selection of relevant passages from Hardys notebooks letters and autobiography and a bibliography suggests further reading Tim Armstrongs critical Introduction discusses Hardys career his poetics his use of memory and allusion and examines his position in the context of Victorian debates on aesthetics and belief The generous selection of poems includes many lesser known poems as well as those which have received most critical commentary and the important elegiac sequence *Poems of 1912 13* is included in its entirety

Selected Poems Robert Bloomfield, 1998 Despite his literary successes publishing six volumes of poetry a play and a children s book Robert Bloomfield never escaped from poverty or anxiety and died early and in distress This penniless history supports the description of Bloomfield as the most successful of the self taught peasant poets of the Romantic period and underscores the incredible odds that any of his writings should be discovered at all This selection of Bloomfield s poems was originally published in 1998 and was the first scholarly edition of his work Bloomfield believed that his patron Capel Lofft had altered the text excessively and so this edition has completely restored Bloomfield s own much fresher text from the autobiographical manuscript at Harvard University Revised and enlarged this version also includes a selection of Bloomfield s prose prefaces and explanatory notes a chronology of his life and a list of further reading
