Conditioning Democratization Ridvan Peshkopia,2014-04-15 This book analyzes the effects of European Union membership conditionality on institutional reforms in Eastern Europe building on concrete examples from four sectors in Albania and Macedonia two postcommunist countries that have yet to join the EU The author discusses the theory of consociational democracy often considered the key to stabilizing deeply divided countries and reapplies it on the international stage to argue for how the EU can better direct democratization **Enciclopedia de Lingüística Hispánica Volume I** Javier Gutiérrez-Rexach,2016-01-29 The Enciclopedia de Linguistica Hisp nica provides comprehensive coverage of the major and subsidiary fields of Spanish linguistics Entries are extensively cross referenced and arranged alphabetically within three main sections Part 1 covers linguistic disciplines approaches and methodologies Part 2 brings together the grammar of Spanish including subsections on phonology morphology syntax and semantics Part 3 brings together the historical social and geographical factors in the evolution of Spanish Drawing on the expertise of a wide range of contributors from across the Spanish speaking world the Enciclopedia de Linguistica Hisp nica is an indispensable reference for undergraduate and postgraduate students of Spanish and for anyone with an academic or professional interest in the Spanish language Spanish linguistics **The Role of the Court of Justice in EU Labour Law** Silvia Rainone,2023-05-17 In an unresolved ongoing debate the Court of Justice of the European Union CJEU is often included among the institutional actors responsible for the declining condition of labour law in Europe Has its case law been more protective of employers interests than of workers rights This innovative book greatly enhances the discussion by bringing to light the judicial lawmaking logic other than those pertaining to the balancing of social and business values that drive the CJEU s reasoning in its interpretation of the labour law provisions enshrined in the European Union EU law with particular attention to the directive on transfer of undertakings Addressing fundamental issues such as uneven bargaining power labour as a commodity coexistence of workers rights and the market economy in the context of judicial lawmaking the author clearly defines the tensions at work What normative models underlie the approaches of EU institutional policymakers with respect to labour law Does the CJEU have its own vision of the socioeconomic model to which the Union should adhere How does the CJEU s interpretative approach stand in relation to the transformation processes that regulators impose on labour law Is the CJEU particularly attentive to the preferences expressed by national governments especially those from the most politically influential states or rather reflect the political pressure of the European Commission What is the role of trans judicial dynamics in shaping the CJEU s reasoning in labour law cases The study is extraordinarily thorough drawing on a wide range

of policy documents scholarly and doctrinal research and the entire body of the CJEU's case law on transfer of undertakings. The legal arguments that the CJEU has developed over the years are mapped and classified according to their affinity with the labour law functions that underlie them. With its comprehensive assessment of the normative implications of EU policymaking in the labour and social domains its thorough exploration of the CJEU's judicial lawmaking dynamics and its extensive empirical legal analysis of the CJEU's case law on transfer of undertakings the book has no peers in revealing the forces that guide the CJEU's decisions in the realm of labour law. Of particular value to scholars and researchers interested in EU social policies and constitutional law the book will also prove of immeasurable value to labour law practitioners aiming to use the case law of the CJEU as well as to in house counsel industrial relation specialists and trade unionists.
