The Territorial Peace Douglas M. Gibling,2012-09-13 There is continued discussion in International Relations surrounding the existence or not of the democratic peace the idea that democracies do not fight each other This book argues that threats to homeland territories force centralization within the state for three reasons First territorial threats are highly salient to individuals and leaders must respond by promoting the security of the state Second threatened territories must be defended by large standing land armies and these armies can then be used as forces for repression during times of peace Finally domestic political bargaining is dramatically altered during times of territorial threat with government opponents joining the leader in promoting the security of the state Leaders therefore have a favorable environment in which to institutionalize greater executive power These forces explain why conflicts are associated with centralized states and in turn why peace is associated with democracy

Liberal Peace,

Liberal War John Malloy Owen,1997 Liberal democracies very rarely fight wars against each other even though they go to war just as often as other types of states do John M Owen IV attributes this peculiar restraint to a synergy between liberal ideology and the institutions that exist within these states Liberal elites identify their interests with those of their counterparts in foreign states Owen contends Free discussion and regular competitive elections allow the agitations of the elites in liberal democracies to shape foreign policy especially during crises by influencing governmental decision makers Several previous analysts have offered theories to explain liberal peace but they have not examined the state This book explores the chain of events linking peace with democracies Owen emphasizes that peace is constructed by democratic ideas and should be understood as a strong tendency built upon historically contingent perceptions and institutions He tests his theory against ten cases drawn from over a century of U S diplomatic history beginning with the Jay Treaty in 1794 and ending with the Spanish American War in 1898 A world full of liberal democracies would not necessarily be peaceful Were illiberal states to disappear Owen asserts liberal states would have difficulty identifying one another and would have less
