AARP Christine L. Day, 2017-10-19 This examination of the history development activities successes and limitations of the largest membership organization in the country will be of interest to anyone who belongs to or is curious about this sometimes controversial group AARP is one of Washington's most influential interest groups but just who does it represent To some it represents the narrow special interests of older Americans who already consume more than their share of government benefits To others its advocacy encompasses everyone including those with elderly parents and grandparents and those who will comprise the older generations of the future The most comprehensive volume ever written about AARP the book begins with a chapter on the organization's history going back to its founding in 1958 and its roots in the National Retired Teachers Association established in 1947 Readers will learn about

AARP's membership and chapter activities including how it grew to be the largest membership organization in the country. Perhaps even more engrossing is the book's investigation of the nature and extent of AARP's political influence and its positions and priorities as it struggles to represent a large and diverse constituency. Finally, the study discusses AARP's organizational model which combines political advocacy, business, and charity, and probes the controversies arising from what AARP's critics charge are conflicts of interest.

One Nation under AARP Frederick Lynch, 2011-06-20 This book provides a fresh and even handed account of the newly modernized AARP formerly the American Association of Retired Persons, the 40 million member insurance giant and political lobby that continues to set the national agenda for Medicare and Social Security. Frederick R. Lynch addresses AARP's courtship of 78 million aging baby boomers and the possibility of harnessing what may be the largest ever senior voting bloc to defend threatened cutbacks to Social Security, Medicare, and underfunded pension systems. Based on years of research, interviews with key strategists, and analyses of hundreds of documents, *One Nation under AARP* profiles a largely white generation raised in the relatively tranquil 1950s and growing old in a twenty-first century nation buffeted by rapid economic, cultural, and demographic change. Lynch argues that an ideologically divided boomer generation must decide whether to resist entitlement reductions through its own political mobilization or, by default, to empower AARP as it tries to shed its greedy geezer stereotype with an increasingly post-boomer agenda for multigenerational equity.

Directory of Research Grants 2008 Schoolhouse Partners LLC, 2008-05 It was the 50s and life was simple until September 25, 1954. That was the night that would be etched in the memory of the citizens of Stanfield, Massachusetts. The Chief of Police described the brutal savagery of the double homicide as the most atrocious crime in the history of the city. A fourteen-year-old girl and the four-year-old boy in her care were murdered at the hands of a deranged, depraved killer. *A Thread of Evidence* places the reader at the scene of the crime, an eye witness to the senseless stabbing of two innocent children. With a piece of crochet thread as their only clue, the entire police department, led by detectives Steven Logan and Raymond Gage, scour the city in search of a maniacal savage. When all tips and leads have been exhausted, they review all evidence. They come back to the thread. The only real evidence. With tenacity and perseverance, Logan and Gage, the killer is apprehended. The reader experiences the twists and turns of the investigation and ultimately occupies a reserved seat in the Superior Court as the trial proceedings commence. *A Thread of Evidence* has been written as fiction but inspired by an actual event. Fifty years later, it remains etched in the minds of all who had lived in the area. The author has researched court records, newspapers, interviewed neighbors, police, and has drawn on personal recollections of the crime. The story has been recounted over and over, and to this day, it continues to be discussed. *A Thread of Evidence* is a compelling account of superb detective work and unprecedented dedication of an entire police department.

Ageism and Mistreatment of Older Workers Patricia Brownell, James J. Kelly, 2012-12-11 This book promotes an understanding of ageism, discrimination, and mistreatment of older adult workers, incorporating an international human rights perspective. The impact of ageism on the

mistreatment of older adult workers has not to date been examined in depth through the lens of international human rights instruments nor has discrimination against older adults in the workplace been framed as a form of elder abuse for research and policy making purposes This book presents a multi disciplinary exploration of these themes as they affect work and retirement of older adults It reflects the view that older people who choose to work into old age should be able to do so in enabling work environments that promote dignity and are free of abuse The contributing authors come from many disciplines including law psychology social work business and international affairs Many are members of the International Network for the Prevention of Elder Abuse INPEA a non governmental organization with consultative status at the United Nations and have devoted their professional careers to increase awareness and understanding of elder abuse in order to prevent it The editors hope that broadening the framework within which elder abuse in the workplace is understood will stimulate further research policy and program development to address this troubling social problem **CIO** ,2004-03-01 **Modern**
