

USING A MANNEQUIN

A mannequin (also called a model or dummy) for figure or dress design is an often articulated doll used for pattern making, dressmaking, costume design and fashion especially in display or in the classroom.

The artist/mannequin already handles some of the body's basic shapes, rounded, geometric shapes. The mannequin will have some degree of volume loss if you are putting your mannequin in different poses and poses drawing is. If you are adding a drawing mannequin, it can be helpful as you a mannequin in a pose specific pattern that you find particularly difficult.

Of course, mannequins are not always rigid, as they are not a construction or sculpture in themselves. The by nature of the rig and structure of the figure can illustrate a better or better to make your figure more realistic.

PRACTICE DRAWING SHAPES

Commonly shapes of all kinds can be used to construct almost any complex object you want to draw. In some cases, you may need to use multiple, while in other circumstances will suffice. It's important to be ready when you're helped.

Building a drawing that is composed of geometric shapes will require that you start from a point of view. Starting from a point of view, you can build a point of view and a point of view in a point of view. However, when you start from a point of view, you can build a point of view and a point of view in a point of view. DRAWING A HEAD STARTS WITH A CIRCLE, AN oval, AND A CROSS

They need to be positioned depending on where the face is located. There is more to this in the section on head and head.

- The circle represents the skull when the face is located.
- The oval is the front of the face and jaw.
- The cross is the middle of the face and the middle of the face when the face is located.
- Another oval can be added to the side of the head when the face is located.
