Leonardo on the Human Body Leonardo (da Vinci), 1983-01-01 It is a miracle that any one man should have observed read and written down so much in a single lifetime Kenneth Clark Painter sculptor musician scientist architect engineer inventor perhaps no other figure so fully embodies the Western Ideal of Renaissance man as Leonardo da Vinci Leonardo was not content however to master an artistic technique or record the mechanics of a device he was driven by an insatiable curiosity to understand why His writings interests and musings are uniformly characterized by an incisive probing questioning mind It was with this piercing intellectual scrutiny and detailed scientific thoroughness that Leonardo undertook the study of the human body This exceptional volume reproduces more than 1 200 of Leonardo's anatomical drawings on 215 clearly printed black and white plates The drawings have been arranged in chronological sequence to display Leonardo's development and growth as an anatomist Leonardo's text which accompanies the drawings sometimes explanatory sometimes autobiographical and anecdotal has been translated into English by the distinguished medical professors Drs O Malley and Saunders In their fascinating biographical introduction the authors evaluate Leonardo's position in the historical development of anatomy and anatomical illustration Each plate is accompanied by explanatory notes and an evaluation of the individual plate and an indication of its relationship to the work as a whole While notable for their extraordinary beauty and precision Leonardo's anatomical drawings were also far in advance of all contemporary work and scientifically the equal of anything that appeared well into the seventeenth century Unlike most of his predecessors and contemporaries Leonardo took nothing on trust and had faith only in his own observations and experiments In anatomy as in his other investigations Leonardo's great distinction is the truly scientific nature of his methods Herein then are over 1 200 of Leonardo's anatomical illustrations organized into eight major areas of study Osteological System Myological System Comparative Anatomy Nervous System Respiratory System Alimentary System Genito Urinary System and Embryology Artists illustrators physicians students teachers scientists and appreciators of Leonardo's extraordinary genius will find in these 1 200 drawings the perfect union of art and science Carefully detailed and accurate in their data beautiful and vibrant in their technique they remain today nearly five centuries later the finest anatomical drawings ever made Dover 1983 unabridged and unaltered republication of Leonardo da Vinci on the Human Body The Anatomical Physiological and Embryological Drawings of Leonardo da Vinci originally published by Henry Schuman New York 1952

Architecture Suzanne Preston Blier, 1994 Blier illuminates the extraordinary architecture of the Batammaliba people of Western Africa revealing these buildings as texts through which we can read the beliefs psychology traditions and social concerns of their inhabitants In doing so she explores the role of vernacular architecture as an expression of culture A splendid analysis of the centrality of architecture in the daily lives of the Batammaliba and its integral role in articulating social values The story is beautifully told in the best of anthropological traditions Judith R Blau Contemporary Society A remarkable study Blier s volume carries the study of African architecture to a qualitatively new level of scholarship It introduces a new dimension whereby the architectural medium can be used to illuminate much of the entire belief system of any culture Labelle Prussin African Arts In this excellent book Blier provides a richly detailed and searching account of what architecture means to the Batammaliba of northern Togo and Benin The finest account I have yet read of the relations between systems of beliefs ritual practices and African aesthetics and plastic arts The ethnography and basic insight should be the envy of any social anthropologist T O Beidelman Man *E-book: Human Anatomy* Saladin, 2016-04-16 E book Human Anatomy **HUMAN ANATOMY AND PHYSIOLOGY-I** Dr. Nanda Baburao Bhalke, Miss.
