Hospital Corpsman 3 U.S. Naval Hospital Corps School (Portsmouth, Va.), United States. Naval Hospital Corps School, Portsmouth, Va, 1955 Air Force Manual United States. Department of the Air Force, 1965 , *Sexual and Reproductive Neurorehabilitation* Mindy L. Aisen, 2013-03-09 This well written text thoroughly addresses two quality of life issues in patients with a variety of neurological disorders sexual and reproductive function The de vasta stating effects of a variety of neurological diseases are well known to both the lay and

medical communities and are treated in numerous texts. However, as we continue to experience therapeutic breakthroughs in the fields of neurology and rehabilitation medicine, physicians and patients must become more aware of the issues discussed in this text. It is particularly important, as emphasized throughout the chapters, that the physician or therapist initiate conversations with the patients concerning both the possibility of parenting a child as well as the ability of the patient to enhance his/her sexual functioning. Commonly in the patient who is otherwise perfectly normal, there is a reluctance to discuss these topics, and couples often feel embarrassed to initiate a conversation with their physicians. This reluctance to initiate a discussion is even more apparent in patients with a variety of neurological disorders in which there are overriding fears concerning both function and survival as well as deep concerns about their own attractiveness and their sexual and reproductive ability.
