Martineau,Eric Racine,2019-11-27 Understanding and improving how organizations work and are managed is the object of management research and practice and this topic is of longstanding interest in the academia and in society at large More recently the contribution that the study of the brain could make to notably our understanding of decisions emotional reactions and behaviors has led to the emergence of the field of organizational neuroscience Within the field of management organizational

neuroscience seeks to explore linkages between neuroscience research theories and methods and management research. Its primary goal is to incorporate findings on the cognitive processes underlying the thoughts, behaviors, and attitudes of organizational actors in order to better inform management theories and to assist in understanding, predicting, and improving these behaviors in the workplace. As a result, we have seen in the last decade a flurry of research projects and publications in organizational neuroscience as well as novel or rejuvenated innovations around neuromarketing, neuroleadership, and cognitive enhancement in the workplace to name a few. However, research and practical applications in organizational neuroscience pose profound ethical challenges, about, for example, organizational responsibility in the responsible use of scientific innovation. Drawing on recent debates in the field and in response to upcoming ethical challenges of organizational neuroscience, this book introduces organizational neuroethics as an emerging interdisciplinary field that addresses the ethics of organizational neuroscience research and applications as well as the neuroscience of organizational ethics. The first part focuses on the ethics of organizational neuroscience, and several chapters tackle the ethics of neuromarketing or neuroleadership and discuss the ethical issues associated with neuroenhancement practice in the workplace. The second part of the book addresses cutting-edge topics in the neuroscience of organizational ethics. Written by international experts in the fields of management neuroscience, ethics, and social science, this book will be of prime interest to practitioners, researchers, and students in the various fields concerned with improving management research and practices as well as organizational ethics.

**Letters of Hope and Wisdom for Brain Injury Survivors** Deana Adams, 2025-08-04

**Letters of Hope and Wisdom for Brain Injury Survivors** Thoughts from a Counselor offers a personal, informal, and spiritual perspective on how to manage the multiple issues related to brain injury. Written by a counsellor who draws on first-hand experiential testimonies and insights, each chapter offers a personal letter to the survivor addressing the various issues stemming from a brain injury along with practical applications suggested for recovery. The book offers a general overview of brain injury and how each part of the brain may be affected. Mental health issues such as depression, anxiety, anger, fear, post-traumatic stress, and grief are described from the perspectives of both the survivor and the family members, and the book also includes strategies on improving self-esteem and gaining new purpose after a brain injury. Additionally, practical coping skills are explained, such as how to deal with sensory overload, adjusting the pace of life, and managing family events. Each chapter also offers a homework section that gives the reader additional exercises to complete. It is valuable reading for brain-injured survivors seeking holistic wellbeing and their family members to help them navigate what lies before them. It also serves as an additional source of therapy for clinicians, counsellors, and upper-level graduate students.
